

Course SLOs aligned with Program SLOs

San Mateo CCCD

CAN Program - Design & Technology, Creative Arts

Develop the ability to communicate design concepts clearly and concisely (i.e. visual, oral, and written)

CAN Dept - Interior Design

CAN INTD 115 - Introduction Interior Design

Course Outcomes:

- * career options - Learn about and understand the viable career options in interior design. (Created By CAN Dept - Interior Design)
- * Design elements and principles - Apply basic principles and elements of design, which are the building blocks of any artistic field. (Created By CAN Dept - Interior Design)
- * visual presentation - Develop and present a total visual presentation as a final project (Created By CAN Dept - Interior Design)
- * wholesale design facilities - Become familiar with the local wholesale design facilities in San Francisco. (Created By CAN Dept - Interior Design)

CAN INTD 126 - Critical Thinking for Interior Designers

Course Outcomes:

- * 3D Models - The ability to present their own designs through 3-d models. (Created By CAN Dept - Interior Design)
- * critique and design process - An understanding of the method and importance of critique in the design process. (Created By CAN Dept - Interior Design)
- * oral presentation of design - An ability to demonstrate their own design initiative through oral presentation. (Created By CAN Dept - Interior Design)

CAN INTD 128 - Presentation Techniques I

Course Outcomes:

- * Hand drawings and Quick Sketches - Students will utilize hand-drawings and quick-sketches as a communication tool. (Created By CAN Dept - Interior Design)
- * Oral and Visual Presentation - Students will develop professional confidence through oral and visual presentation in class (Created By CAN Dept - Interior Design)
- * Perspective drawings - Students will finish completed renderings using 1-point, 2-point, 3-point perspectives and paraline drawing through the use of black and white media (Created By CAN Dept - Interior Design)
- * Sketchbook - Students will develop observational skills in the field through the use of the sketchbook, (Created By CAN Dept - Interior Design)

CAN INTD 129 - Presentation Techniques II

Course Outcomes:

- * color renderings - Student will create finished color renderings through the use of various color media and line media. (Created By CAN Dept - Interior Design)
- * hand-drawing - Student will utilize hand-drawings as a communication tool. (Created By CAN Dept - Interior Design)
- * observational skills - Student will improve observational skills in the field through the use of the sketchbook. (Created By CAN Dept - Interior Design)
- * oral presentation - Student will develop professional confidence through oral and visual presentation in class. (Created By CAN Dept - Interior Design)

CAN INTD 148 - Color and Design

Course Outcomes:

- * Color Influence - Understand and apply the influence of history, culture, and the environment on the selection of color. (Created By CAN Dept - Interior Design)
- * Color terminology, application and use - Understand and define basic color terminology and its appropriate application and use. (Created By CAN Dept - Interior Design)
- * Impact of color - Describe the physical and psychological impact of color and its appropriate use to solve design problems. (Created By CAN Dept - Interior Design)

CAN INTD 150 - History of Interiors I

Course Outcomes:

- * Major Influences - Identify major influences and selected design motifs of ancient and selected other cultures used in furniture and interior design. (Created By CAN Dept - Interior Design)
- * Selected Style Periods - Identify typical colors, motifs, fabrics, and other typical materials appropriate for and typical of selected style periods. (Created By CAN Dept - Interior Design)

- * Western Furniture Style Periods - Identify major Western furniture style periods, cabinetmakers, and furniture designers that relate to interiors and furnishings. (Created By CAN Dept - Interior Design)

CAN INTD 151 - History of Interiors II

Course Outcomes:

- * furniture style identification - Identify major Western furniture style periods, cabinetmakers, and furniture designers that relate to interiors and furnishings. (Created By CAN Dept - Interior Design)
- * style and design influences - Identify major influences and selected design motifs of characteristic of the period and selected global cultures used in furniture and interior design. (Created By CAN Dept - Interior Design)
- * style colors, motifs, fabric id - Identify typical colors, motifs, fabrics, and other typical materials appropriate for and typical of selected style periods. (Created By CAN Dept - Interior Design)

CAN INTD 175 - Residential Design

Course Outcomes:

- * Analyze-Evaluate - Use basic principles of spatial layout and furniture planning to create functional and well designed space plans using architectural drafting skills that successfully meet the needs of the client's program (Created By CAN Dept - Interior Design)
- * Client Needs - SLO 5 - Select appropriate colors and materials for a residential environment based on client needs (Created By CAN Dept - Interior Design)
- * Special Needs - Use knowledge of universal and accessible design and incorporate these design concepts into their space plans, (Created By CAN Dept - Interior Design)
- * Sustainability concepts - Apply knowledge of sustainability and environmental design concepts into space plans. (Created By CAN Dept - Interior Design)

CAN INTD 250 - Professional Practices

Course Outcomes:

- * Business Plan - Prepare a business plan: a guide to setting up a specific design practice. (Created By CAN Dept - Interior Design)
- * Paperwork - Be able to complete the specific paperwork and contract documents required for obtaining wholesale products (Created By CAN Dept - Interior Design)
- * Wholesale Facilities - Become familiar with the San Francisco Design Center, our local wholesale facility. (Created By CAN Dept - Interior Design)

CAN INTD 260 - Overview of Lighting Design

Course Outcomes:

- * Fixtures - Specify appropriate lamping and fixtures for application to interior needs; recognizing quality lighting in architectural spaces, and developing a knowledge base for how it is accomplished (Created By CAN Dept - Interior Design)
- * Lighting concepts communication - Develop lighting concepts, draft lighting plans, select fixtures and package lighting specifications (Created By CAN Dept - Interior Design)
- * Lighting Terminology - Become familiar with the language of lighting including technical terms, trade names, product types, and language in lighting codes (Created By CAN Dept - Interior Design)

CAN INTD 270 - Kitchen Design

Course Outcomes:

- * Drawings - Design and produce working drawings of a kitchen space according to the current NKBA Guidelines and Graphic Standards. (Created By CAN Dept - Interior Design)
- * Measurements - Student will become proficient at measuring and reporting existing measurements and conditions of kitchen space and client needs. (Created By CAN Dept - Interior Design)
- * NKBA - Student will learn, understand, and apply the current NKBA Kitchen Planning Guidelines. (Created By CAN Dept - Interior Design)

CAN INTD 271 - Bath Design

Course Outcomes:

- * Measuring-Reporting - Student will be proficient at measuring and reporting existing measurements and conditions of bath spaces and client needs. (Created By CAN Dept - Interior Design)
- * Working Drawings - Student will design and produce working drawings of a bath space according to the current NKBA Guidelines and Graphic Standards. (Created By CAN Dept - Interior Design)

CAN INTD 276 - Advanced Kitchen and Bath

Course Outcomes:

- * Bathroom Drawings - Develop a set of technical and construction drawings for a bathroom according to NKBA Planning and Drawing Guidelines (Created By CAN Dept - Interior Design)
- * Kitchen Drawings - SLO1: Develop a set of technical and construction drawings for a kitchen according to NKBA Planning and Drawing Guidelines (Created By CAN Dept - Interior Design)
- * Mgmt & Scheduling - SLO3: Apply the process of project management and scheduling to a kitchen or bath project (Created By CAN Dept - Interior Design)

CAN INTD 340 - Furn, Casework & Detailing

Course Outcomes:

- *Cabinetry and furniture construction - Develop an understanding of basic cabinetry, furniture, and interior detail drawing skills and techniques for fabrication purposes. (Created By CAN Dept - Interior Design)
- *Procedures & Requirements - Compare and contrast construction procedures, industry standards, and manufacturers? fabrication requirements (Created By CAN Dept - Interior Design)
- *Workable Drawings - Transform creative design concepts and sketches into workable interior details and casework drawings (Created By CAN Dept - Interior Design)

CAN INTD 350 - Commercial Design

Course Outcomes:

- * Commercial design project - Create a commercial design project in a collaborative environment (Created By CAN Dept - Interior Design)
- * Commercial space planning - Demonstrate an understanding of the application of the design process, codes, and techniques in commercial spaces (Created By CAN Dept - Interior Design)
- * Cost, sustainable products - Analyze cost effectiveness of sustainable products and materials (Created By CAN Dept - Interior Design)

CAN INTD 356 - Resident/Commercial Construct.

Course Outcomes:

- * Building Construction systems - Evaluate and specify basic construction systems and how they relate to interior planning and design; (Created By CAN Dept - Interior Design)
- * Codes and standards - Demonstrate basic knowledge of state and local building codes and standards and how local municipal building and planning departments implement these codes and standards. (Created By CAN Dept - Interior Design)
- * Construction problem solving - Ability to solve practical problems in new construction and remodeling projects pertaining to building systems. (Created By CAN Dept - Interior Design)

CAN INTD 360 - CAD Apps For Interior Design

Course Outcomes:

- * Design Plans - Use AutoCad graphics as a basic communication tool for expressing ideas and developing design plans (Created By CAN Dept - Interior Design)
- * Proficiency - Edit and manage an AutoCAD drawing database (Created By CAN Dept - Interior Design)
- * Software - Create and modify a set of architectural drawings for an interior project utilizing AutoCAD software (Created By CAN Dept - Interior Design)

CAN INTD 400 - Green/Sustainable Design Concepts

Course Outcomes:

- * Environmentally Responsible - Students will provide information about materials and educate clients on environmentally responsible design and products (Created By CAN Dept - Interior Design)
- * Identify Materials - Identify and specify sustainable materials and finishes for a design project (Created By CAN Dept - Interior Design)
- * Resources - Locate resources for environmentally responsible products and materials (Created By CAN Dept - Interior Design)

CAN INTD 401 - Sustainability and Energy-Efficient Homes

Course Outcomes:

- * Energy Assessment - Perform an energy assessment of a residential space (Created By CAN Dept - Interior Design)
- * Energy Efficient Strategies - Propose energy efficient strategies for a selected residence (Created By CAN Dept - Interior Design)

CAN INTD 450 - Materials and Finishes

Course Outcomes:

- * appropriate material selection - Evaluate and select appropriate materials for a design solution based on client needs (Created By CAN Dept - Interior Design)
- * fabric id - Identify fabric and fabric construction methods for interiors use (Created By CAN Dept - Interior Design)
- * Lifecycle and environmental impact - Evaluate selected materials for their lifecycle and environmental impact (Created By CAN Dept - Interior Design)
- * other material id - Identify selected other materials than fabric for interior spaces based on client needs (Created By CAN Dept - Interior Design)

Understand the elements and principles of design through discipline specific implementation.

CAN Dept - Interior Design

CAN INTD 115 - Introduction Interior Design

Course Outcomes:

- * Design elements and principles - Apply basic principles and elements of design, which are the building blocks of any artistic field. (Created By CAN Dept - Interior Design)

- * visual presentation - Develop and present a total visual presentation as a final project (Created By CAN Dept - Interior Design)
- * wholesale design facilities - Become familiar with the local wholesale design facilities in San Francisco. (Created By CAN Dept - Interior Design)

CAN INTD 126 - Critical Thinking for Interior Designers

Course Outcomes:

- * 3D Models - The ability to present their own designs through 3-d models. (Created By CAN Dept - Interior Design)
- * critique and design process - An understanding of the method and importance of critique in the design process. (Created By CAN Dept - Interior Design)
- * oral presentation of design - An ability to demonstrate their own design initiative through oral presentation. (Created By CAN Dept - Interior Design)

CAN INTD 128 - Presentation Techniques I

Course Outcomes:

- * Hand drawings and Quick Sketches - Students will utilize hand-drawings and quick-sketches as a communication tool. (Created By CAN Dept - Interior Design)
- * Oral and Visual Presentation - Students will develop professional confidence through oral and visual presentation in class (Created By CAN Dept - Interior Design)
- * Perspective drawings - Students will finish completed renderings using 1-point, 2-point, 3-point perspectives and paraline drawing through the use of black and white media (Created By CAN Dept - Interior Design)
- * Sketchbook - Students will develop observational skills in the field through the use of the sketchbook, (Created By CAN Dept - Interior Design)

CAN INTD 129 - Presentation Techniques II

Course Outcomes:

- * color renderings - Student will create finished color renderings through the use of various color media and line media. (Created By CAN Dept - Interior Design)
- * hand-drawing - Student will utilize hand-drawings as a communication tool. (Created By CAN Dept - Interior Design)
- * observational skills - Student will improve observational skills in the field through the use of the sketchbook. (Created By CAN Dept - Interior Design)
- * oral presentation - Student will develop professional confidence through oral and visual presentation in class. (Created By CAN Dept - Interior Design)

CAN INTD 148 - Color and Design

Course Outcomes:

- * Color Influence - Understand and apply the influence of history, culture, and the environment on the selection of color. (Created By CAN Dept - Interior Design)
- * Color terminology, application and use - Understand and define basic color terminology and its appropriate application and use. (Created By CAN Dept - Interior Design)
- * Impact of color - Describe the physical and psychological impact of color and its appropriate use to solve design problems. (Created By CAN Dept - Interior Design)

CAN INTD 150 - History of Interiors I

Course Outcomes:

- * Major Influences - Identify major influences and selected design motifs of ancient and selected other cultures used in furniture and interior design. (Created By CAN Dept - Interior Design)
- * Selected Style Periods - Identify typical colors, motifs, fabrics, and other typical materials appropriate for and typical of selected style periods. (Created By CAN Dept - Interior Design)
- * Western Furniture Style Periods - Identify major Western furniture style periods, cabinetmakers, and furniture designers that relate to interiors and furnishings. (Created By CAN Dept - Interior Design)

CAN INTD 151 - History of Interiors II

Course Outcomes:

- * furniture style identification - Identify major Western furniture style periods, cabinetmakers, and furniture designers that relate to interiors and furnishings. (Created By CAN Dept - Interior Design)
- * style and design influences - Identify major influences and selected design motifs of characteristic of the period and selected global cultures used in furniture and interior design. (Created By CAN Dept - Interior Design)
- * style colors, motifs, fabric id - Identify typical colors, motifs, fabrics, and other typical materials appropriate for and typical of selected style periods. (Created By CAN Dept - Interior Design)

CAN INTD 175 - Residential Design

Course Outcomes:

- * Analyze-Evaluate - Use basic principles of spatial layout and furniture planning to create functional and well designed space plans using architectural drafting skills that successfully meet the needs of the client's program (Created By CAN Dept - Interior Design)

- * Client Needs - SLO 5 - Select appropriate colors and materials for a residential environment based on client needs (Created By CAN Dept - Interior Design)
- * Special Needs - Use knowledge of universal and accessible design and incorporate these design concepts into their space plans, (Created By CAN Dept - Interior Design)
- * Sustainability concepts - Apply knowledge of sustainability and environmental design concepts into space plans. (Created By CAN Dept - Interior Design)

CAN INTD 260 - Overview of Lighting Design

Course Outcomes:

- * Fixtures - Specify appropriate lighting and fixtures for application to interior needs; recognizing quality lighting in architectural spaces, and developing a knowledge base for how it is accomplished (Created By CAN Dept - Interior Design)
- * Lighting concepts communication - Develop lighting concepts, draft lighting plans, select fixtures and package lighting specifications (Created By CAN Dept - Interior Design)
- * Lighting Terminology - Become familiar with the language of lighting including technical terms, trade names, product types, and language in lighting codes (Created By CAN Dept - Interior Design)

CAN INTD 270 - Kitchen Design

Course Outcomes:

- * Drawings - Design and produce working drawings of a kitchen space according to the current NKBA Guidelines and Graphic Standards. (Created By CAN Dept - Interior Design)
- * Measurements - Student will become proficient at measuring and reporting existing measurements and conditions of kitchen space and client needs. (Created By CAN Dept - Interior Design)
- * NKBA - Student will learn, understand, and apply the current NKBA Kitchen Planning Guidelines. (Created By CAN Dept - Interior Design)

CAN INTD 271 - Bath Design

Course Outcomes:

- * Measuring-Reporting - Student will be proficient at measuring and reporting existing measurements and conditions of bath spaces and client needs. (Created By CAN Dept - Interior Design)
- * Working Drawings - Student will design and produce working drawings of a bath space according to the current NKBA Guidelines and Graphic Standards. (Created By CAN Dept - Interior Design)

CAN INTD 276 - Advanced Kitchen and Bath

Course Outcomes:

- * Bathroom Drawings - Develop a set of technical and construction drawings for a bathroom according to NKBA Planning and Drawing Guidelines (Created By CAN Dept - Interior Design)
- * Kitchen Drawings - SLO1: Develop a set of technical and construction drawings for a kitchen according to NKBA Planning and Drawing Guidelines (Created By CAN Dept - Interior Design)

CAN INTD 340 - Furn, Casework & Detailing

Course Outcomes:

- * Cabinetry and furniture construction - Develop an understanding of basic cabinetry, furniture, and interior detail drawing skills and techniques for fabrication purposes. (Created By CAN Dept - Interior Design)
- * Workable Drawings - Transform creative design concepts and sketches into workable interior details and casework drawings (Created By CAN Dept - Interior Design)

CAN INTD 350 - Commercial Design

Course Outcomes:

- * Commercial design project - Create a commercial design project in a collaborative environment (Created By CAN Dept - Interior Design)
- * Commercial space planning - Demonstrate an understanding of the application of the design process, codes, and techniques in commercial spaces (Created By CAN Dept - Interior Design)
- * Cost, sustainable products - Analyze cost effectiveness of sustainable products and materials (Created By CAN Dept - Interior Design)

CAN INTD 356 - Resident/Commercial Construct.

Course Outcomes:

- * Building Construction systems - Evaluate and specify basic construction systems and how they relate to interior planning and design; (Created By CAN Dept - Interior Design)
- * Codes and standards - Demonstrate basic knowledge of state and local building codes and standards and how local municipal building and planning departments implement these codes and standards. (Created By CAN Dept - Interior Design)

CAN INTD 360 - CAD Apps For Interior Design

Course Outcomes:

- * Design Plans - Use AutoCad graphics as a basic communication tool for expressing ideas and developing design plans (Created By CAN Dept - Interior Design)
- * Proficiency - Edit and manage an AutoCAD drawing database (Created By CAN Dept - Interior Design)
- * Software - Create and modify a set of architectural drawings for an interior project utilizing AutoCAD software

(Created By CAN Dept - Interior Design)

CAN INTD 400 - Green/Sustainable Design Concepts

Course Outcomes:

- * Environmentally Responsible - Students will provide information about materials and educate clients on environmentally responsible design and products (Created By CAN Dept - Interior Design)
- * Identify Materials - Identify and specify sustainable materials and finishes for a design project (Created By CAN Dept - Interior Design)

CAN INTD 401 - Sustainability and Energy-Efficient Homes

Course Outcomes:

- * Energy Assessment - Perform an energy assessment of a residential space (Created By CAN Dept - Interior Design)

CAN INTD 450 - Materials and Finishes

Course Outcomes:

- * fabric id - Identify fabric and fabric construction methods for interiors use (Created By CAN Dept - Interior Design)

Develop competitive industry standard skills in the respective fields.

CAN Dept - Interior Design

CAN INTD 115 - Introduction Interior Design

Course Outcomes:

- * career options - Learn about and understand the viable career options in interior design. (Created By CAN Dept - Interior Design)
- * Design elements and principles - Apply basic principles and elements of design, which are the building blocks of any artistic field. (Created By CAN Dept - Interior Design)
- * visual presentation - Develop and present a total visual presentation as a final project (Created By CAN Dept - Interior Design)
- * wholesale design facilities - Become familiar with the local wholesale design facilities in San Francisco. (Created By CAN Dept - Interior Design)

CAN INTD 126 - Critical Thinking for Interior Designers

Course Outcomes:

- * 3D Models - The ability to present their own designs through 3-d models. (Created By CAN Dept - Interior Design)
- * critique and design process - An understanding of the method and importance of critique in the design process. (Created By CAN Dept - Interior Design)
- * oral presentation of design - An ability to demonstrate their own design initiative through oral presentation. (Created By CAN Dept - Interior Design)

CAN INTD 128 - Presentation Techniques I

Course Outcomes:

- * Hand drawings and Quick Sketches - Students will utilize hand-drawings and quick-sketches as a communication tool. (Created By CAN Dept - Interior Design)
- * Oral and Visual Presentation - Students will develop professional confidence through oral and visual presentation in class (Created By CAN Dept - Interior Design)
- * Perspective drawings - Students will finish completed renderings using 1-point, 2-point, 3-point perspectives and paraline drawing through the use of black and white media (Created By CAN Dept - Interior Design)
- * Sketchbook - Students will develop observational skills in the field through the use of the sketchbook, (Created By CAN Dept - Interior Design)

CAN INTD 129 - Presentation Techniques II

Course Outcomes:

- * color renderings - Student will create finished color renderings through the use of various color media and line media. (Created By CAN Dept - Interior Design)
- * hand-drawing - Student will utilize hand-drawings as a communication tool. (Created By CAN Dept - Interior Design)
- * observational skills - Student will improve observational skills in the field through the use of the sketchbook. (Created By CAN Dept - Interior Design)
- * oral presentation - Student will develop professional confidence through oral and visual presentation in class. (Created By CAN Dept - Interior Design)

CAN INTD 148 - Color and Design

Course Outcomes:

- * Color Influence - Understand and apply the influence of history, culture, and the environment on the selection of color. (Created By CAN Dept - Interior Design)

- * Color terminology, application and use - Understand and define basic color terminology and its appropriate application and use. (Created By CAN Dept - Interior Design)
- * Impact of color - Describe the physical and psychological impact of color and its appropriate use to solve design problems. (Created By CAN Dept - Interior Design)

CAN INTD 150 - History of Interiors I

Course Outcomes:

- * Major Influences - Identify major influences and selected design motifs of ancient and selected other cultures used in furniture and interior design. (Created By CAN Dept - Interior Design)
- * Selected Style Periods - Identify typical colors, motifs, fabrics, and other typical materials appropriate for and typical of selected style periods. (Created By CAN Dept - Interior Design)
- * Western Furniture Style Periods - Identify major Western furniture style periods, cabinetmakers, and furniture designers that relate to interiors and furnishings. (Created By CAN Dept - Interior Design)

CAN INTD 151 - History of Interiors II

Course Outcomes:

- * furniture style identification - Identify major Western furniture style periods, cabinetmakers, and furniture designers that relate to interiors and furnishings. (Created By CAN Dept - Interior Design)
- * style and design influences - Identify major influences and selected design motifs of characteristic of the period and selected global cultures used in furniture and interior design. (Created By CAN Dept - Interior Design)
- * style colors, motifs, fabric id - Identify typical colors, motifs, fabrics, and other typical materials appropriate for and typical of selected style periods. (Created By CAN Dept - Interior Design)

CAN INTD 175 - Residential Design

Course Outcomes:

- * Analyze-Evaluate - Use basic principles of spatial layout and furniture planning to create functional and well designed space plans using architectural drafting skills that successfully meet the needs of the client's program (Created By CAN Dept - Interior Design)
- * Client Needs - SLO 5 - Select appropriate colors and materials for a residential environment based on client needs (Created By CAN Dept - Interior Design)
- * Special Needs - Use knowledge of universal and accessible design and incorporate these design concepts into their space plans, (Created By CAN Dept - Interior Design)
- * Sustainability concepts - Apply knowledge of sustainability and environmental design concepts into space plans. (Created By CAN Dept - Interior Design)

CAN INTD 250 - Professional Practices

Course Outcomes:

- * Business Plan - Prepare a business plan: a guide to setting up a specific design practice. (Created By CAN Dept - Interior Design)
- * Design Disciplines - Understanding the challenges and differences of the various design disciplines. (Created By CAN Dept - Interior Design)
- * Paperwork - Be able to complete the specific paperwork and contract documents required for obtaining wholesale products (Created By CAN Dept - Interior Design)
- * Terminology - Knowledge of and correct use of the terminology of the business of Interior Design (Created By CAN Dept - Interior Design)
- * Wholesale Facilities - Become familiar with the San Francisco Design Center, our local wholesale facility. (Created By CAN Dept - Interior Design)

CAN INTD 260 - Overview of Lighting Design

Course Outcomes:

- * Fixtures - Specify appropriate lamping and fixtures for application to interior needs; recognizing quality lighting in architectural spaces, and developing a knowledge base for how it is accomplished (Created By CAN Dept - Interior Design)
- * Lighting concepts communication - Develop lighting concepts, draft lighting plans, select fixtures and package lighting specifications (Created By CAN Dept - Interior Design)
- * Lighting Terminology - Become familiar with the language of lighting including technical terms, trade names, product types, and language in lighting codes (Created By CAN Dept - Interior Design)

CAN INTD 270 - Kitchen Design

Course Outcomes:

- * Drawings - Design and produce working drawings of a kitchen space according to the current NKBA Guidelines and Graphic Standards. (Created By CAN Dept - Interior Design)
- * Measurements - Student will become proficient at measuring and reporting existing measurements and conditions of kitchen space and client needs. (Created By CAN Dept - Interior Design)
- * NKBA - Student will learn, understand, and apply the current NKBA Kitchen Planning Guidelines. (Created By CAN Dept - Interior Design)

CAN INTD 271 - Bath Design

Course Outcomes:

- * Measuring-Reporting - Student will be proficient at measuring and reporting existing measurements and conditions of bath spaces and client needs. (Created

By CAN Dept - Interior Design)

- * Working Drawings - Student will design and produce working drawings of a bath space according to the current NKBA Guidelines and Graphic Standards. (Created By CAN Dept - Interior Design)

CAN INTD 276 - Advanced Kitchen and Bath

Course Outcomes:

- * Bathroom Drawings - Develop a set of technical and construction drawings for a bathroom according to NKBA Planning and Drawing Guidelines (Created By CAN Dept - Interior Design)
- * Kitchen Drawings - SLO1: Develop a set of technical and construction drawings for a kitchen according to NKBA Planning and Drawing Guidelines (Created By CAN Dept - Interior Design)
- * Mgmt & Scheduling - SLO3: Apply the process of project management and scheduling to a kitchen or bath project (Created By CAN Dept - Interior Design)

CAN INTD 340 - Furn, Casework & Detailing

Course Outcomes:

- * Cabinetry and furniture construction - Develop an understanding of basic cabinetry, furniture, and interior detail drawing skills and techniques for fabrication purposes. (Created By CAN Dept - Interior Design)
- * Procedures & Requirements - Compare and contrast construction procedures, industry standards, and manufacturers' fabrication requirements (Created By CAN Dept - Interior Design)
- * Workable Drawings - Transform creative design concepts and sketches into workable interior details and casework drawings (Created By CAN Dept - Interior Design)

CAN INTD 350 - Commercial Design

Course Outcomes:

- * Commercial design project - Create a commercial design project in a collaborative environment (Created By CAN Dept - Interior Design)
- * Commercial space planning - Demonstrate an understanding of the application of the design process, codes, and techniques in commercial spaces (Created By CAN Dept - Interior Design)
- * Cost, sustainable products - Analyze cost effectiveness of sustainable products and materials (Created By CAN Dept - Interior Design)

CAN INTD 356 - Resident/Commercial Construct.

Course Outcomes:

- * Building Construction systems - Evaluate and specify basic construction systems and how they relate to interior planning and design; (Created By CAN Dept - Interior Design)
- * Codes and standards - Demonstrate basic knowledge of state and local building codes and standards and how local municipal building and planning departments implement these codes and standards. (Created By CAN Dept - Interior Design)
- * Construction problem solving - Ability to solve practical problems in new construction and remodeling projects pertaining to building systems. (Created By CAN Dept - Interior Design)

CAN INTD 360 - CAD Apps For Interior Design

Course Outcomes:

- * Design Plans - Use AutoCad graphics as a basic communication tool for expressing ideas and developing design plans (Created By CAN Dept - Interior Design)
- * Proficiency - Edit and manage an AutoCAD drawing database (Created By CAN Dept - Interior Design)
- * Software - Create and modify a set of architectural drawings for an interior project utilizing AutoCAD software (Created By CAN Dept - Interior Design)

CAN INTD 400 - Green/Sustainable Design Concepts

Course Outcomes:

- * Environmentally Responsible - Students will provide information about materials and educate clients on environmentally responsible design and products (Created By CAN Dept - Interior Design)
- * Identify Materials - Identify and specify sustainable materials and finishes for a design project (Created By CAN Dept - Interior Design)
- * Resources - Locate resources for environmentally responsible products and materials (Created By CAN Dept - Interior Design)

CAN INTD 401 - Sustainability and Energy-Efficient Homes

Course Outcomes:

- * Energy Assessment - Perform an energy assessment of a residential space (Created By CAN Dept - Interior Design)
- * Energy Efficient Strategies - Propose energy efficient strategies for a selected residence (Created By CAN Dept - Interior Design)

CAN INTD 450 - Materials and Finishes

Course Outcomes:

- * appropriate material selection - Evaluate and select appropriate materials for a design solution based on client needs (Created By CAN Dept - Interior Design)
- * fabric id - Identify fabric and fabric construction methods for interiors use (Created By CAN Dept - Interior Design)

- * Lifecycle and environmental impact - Evaluate selected materials for their lifecycle and environmental impact (Created By CAN Dept - Interior Design)
- * other material id - Identify selected other materials than fabric for interior spaces based on client needs (Created By CAN Dept - Interior Design)
