A Welcome to Cañada College from President Tom Mohr

Dear students and community members,

I hope that you find the contents of our college catalogue to be informative and reflective of the wide range of academic offerings and support services available at Cañada College. With many higher education options available, what makes Cañada College stand out as a top choice for students in the Bay Area? In a word, it's service. Cañada College is one of the smallest community colleges in the Bay Area and offers personal service that you won't find anywhere else. Whether it's in the classroom, Learning Center, Counseling Services or our state-of-the-art Library, you'll find friendly people who will work with you to help you achieve your academic and career goals. This is the reason Cañada College consistently ranks at the top of all California community colleges in preparing students to transfer to universities and to re-enter the workforce.

In addition to superior academic offerings and support services, students at Cañada College are literally exposed to a world of new ideas. A wide variety of students bring diversity and cultural awareness to the campus. Professors emphasize the importance of critical thinking, ethics, and interpersonal skills as they prepare students to succeed in the global workplace. Silicon Valley sits in the middle of an ever-changing global economy and Cañada College is connected to the cutting-edge businesses and industries in this region. Our new 3D Animation and Video Game Art program is the only one of its kind in the Bay Area and is a perfect example of how we continually update our class offerings to help you compete in a growing industry in the global workplace.

Cañada College has also forged partnerships with local school districts, especially high schools, offering programs that address the needs of highly skilled students who are ready to accelerate their college enrollment. Did you know that you can begin your college education at Cañada College as soon as you finish your sophomore year in high school? Did you know that most of the classes are free? If you participate in our concurrent enrollment program you can finish your first two years of college at about the same time you receive your high school diploma. Cañada College also offers collaborative programs for students who are immigrants, low-income and unfamiliar with the college environment.

Finally, at Cañada College, you don't have to transfer to earn a bachelor's degree. Cañada College is home to the first legislatively designated "University Center" at a California community college. More than 1,000 students are enrolled in classes taught at the University Center by professors from universities around the Bay Area. You can earn a bachelor's degree in nursing, early childhood development, business administration, and liberal studies, and an executive master's degree in business administration.

Those of us who work and teach at Cañada College are proud to bring you top quality education at a public community college. We are honored to serve you and will do all we can to make your experience with us successful.

Tom Mohr

The District

District Mission Statement

Preamble

The Colleges of the San Mateo County Community College District, Cañada College, College of San Mateo, and Skyline College, recognizing each individual's right to education, provide the occasions and settings which enable students to develop their minds and their skills, engage their spirits, broaden their understanding of social responsibilities, and realize their individual potential. The District is committed to leadership by providing quality education and lifelong learning in partnership with its community and its surrounding educational institutions. It actively participates in the economic, social and cultural development of San Mateo County. In a richly diverse environment and with increasing awareness of its role in the global community, the District is dedicated to maintaining a climate of academic freedom in which a wide variety of viewpoints is cultivated and shared. The District actively participates in the continuing development of the California Community Colleges as an integral and effective component of the structure of public higher education in the State.

Mission

In an atmosphere of collegiality and shared responsibility, and with the objective of sustaining open access for students and being responsive to community needs, the San Mateo County Community College District will fulfill the following mission with excellence:

1. provide a breadth of educational opportunities and experiences which encourage students to develop their general understanding of human effort and achievement;
2. provide lower division programs to enable students to transfer to baccalaureate institutions;
3. provide occupational education and training programs directed toward career development, in cooperation with business, industry, labor, and public service agencies;
4. provide developmental and remedial education in language and computational skills required for the successful completion of educational goals;
5. provide a range of student services to assist students in attaining their education and career goals;
6. provide self-supporting community education classes, contract education and training, and related services tailored to the human and economic development of the community;
7. celebrate the community's rich cultural diversity; reflect this diversity in student enrollment; and promote it in its staff and maintain a campus climate that supports student success.

To fulfill this educational mission, the District is committed to effective institutional research that supports the evaluation and improvement of programs, services, and student outcomes. Shared governance is practiced through processes that are inclusive with regard to information sharing and decision making, and that are respectful of all participants. The District plans, organizes, and develops its resources to achieve maximum effectiveness, efficiency, equity and accountability.

Cañada College

Cañada College opened in 1968. Its 131-acre site is located in the western part of Redwood City and overlooks the Bay. The College takes its name from Cañada Road, which winds its way through the valley to the west of the College; the Spanish word "cañada" means "long valley." Cañada is one of three community colleges in the San Mateo County Community College District and its primary service area is the southern portion of San Mateo County, Redwood City, San Carlos, Menlo Park, Atherton, East Palo Alto, La Honda, Portola Valley and Woodside.

Mission Statement

It is the mission of Cañada College to ensure that students from diverse backgrounds have the opportunity to achieve their educational goals by providing quality instruction in general, transfer, career, and basic skills education, and activities that foster students' personal development and academic success. Cañada College places a high priority on supportive faculty/staff/student teaching and learning relationships, responsive support services, and a co-curricular environment that contributes to personal growth and success for students. The College is committed to the students and the community to fulfill this mission.

Vision

Cañada College ensures student success through personalized, flexible, and innovative instruction. The College infuses essential skills and competencies throughout the curriculum and assesses student learning and institutional effectiveness to make continuous improvement. Cañada responds to the changing needs of the people it serves by being involved in and responsive to the community, developing new programs and partnerships and incorporating new technologies and methodologies into its programs and services.

Values

As a student-centered community college, Cañada is committed to the following core values:

- Creating an inclusive environment for teaching and learning by honoring, respecting, and embracing diversity within our College and surrounding community;
- Providing a personal, caring atmosphere.
- Promoting student access, success, self-efficacy, and passion for learning
- Encouraging a passion for life-long learning
- Demanding and insuring excellence in teaching and supporting our students
- Incorporating ethical approaches into all aspects of the educational process;
- Striving to be an innovative college by responding to the changing needs of students, community, and industry
- Practicing the inclusion of shared governance processes in all appropriate aspects of College life

Role of the Faculty, Staff and Students

Cañada College seeks the counsel of its faculty and students through a system of permanent councils, committees and informal consulta-

tion. Standing and ad hoc committees are organized under the College Council or the Academic Senate which operates through a Governing Council (elected by the faculty). Classified staff members of committees are appointed by the CSEA; student members are appointed by the Associated Student Government. Instructors, students, staff and administrators participate in curriculum development and the learning processes and in the general campus environment as full voting members of the various college committees which provide guidance and assistance to the President.

Statement on Academic Freedom

The San Mateo County Community College District is dedicated to maintaining a climate of academic freedom encouraging the sharing and cultivation of a wide variety of viewpoints. Academic freedom expresses our belief in inquiry, informed debate and the search for truth; academic freedom is necessary in order to provide students with a variety of ideas, to encourage them to engage in critical thinking and to help them understand conflicting opinions.

Academic freedom encompasses the freedom to study, teach, and express ideas, including unpopular or controversial ones, without censorship or political restraint. Academic freedom, rather than being a license to do or say whatever one wishes, requires professional competence, open inquiry and rigorous attention to the pursuit of truth.

The District's faculty have the right to express their informed opinions which relate, directly or indirectly, to their professional activities, whether these opinions are expressed in the classroom, elsewhere on campus or at college-related functions. In a search for truth and in a context of reasoned academic debate, students also have the right to express their opinions and to question those presented by others.

Employment by the District does not in any way restrict or limit the First Amendment rights enjoyed by faculty as members of their communities. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

Protecting academic freedom is the responsibility of the college community. Therefore, in a climate of openness and mutual respect, free from distortion and doctrinal obligation, the District protects and encourages the exchange of ideas, including unpopular ones, which are presented in a spirit of free and open dialogue and constructive debate.

- Demonstrate sufficient command of English to profit from instruction at Cañada. A minimum T.O.E.F.L. score requirement is 480 on the paper based exam and 157 on the computer based exam. Individuals admitted as international students may be required to enroll in intensive English courses, based on placement test results.
- Submit a one page essay.
- Submit evidence of necessary funds to pay tuition, fees, and all living expenses while attending Cañada. (See pages 14–15 for information on enrollment and other required fees.)
- Provide evidence, prior to registration, of medical and hospitalization insurance coverage or enroll in the plan provided for international students by the insurance carrier approved by the San Mateo County Community College District (SMCCCD). If a student carries his/her own insurance, the coverage must be equivalent to or greater than the amount provided by the SMCCCD plan.

International students are required to complete 12 units of coursework (full-time) each semester in order to maintain F-1 status.

Application for admission as an F-1 visa student must be made through the International Student Office. Special application deadlines apply. Call (650) 306-3494 for information. (Fax: 650-306-3113.)

Students who are legal residents of another country and who are in the United States temporarily on F-1 visas to study at another institution may be admitted as part-time students at Cañada College with the approval of their primary college. These students must present a letter of approval from a counselor or official of the other institution in order to attend Cañada College.

Residents of other countries holding types of temporary visas other than F-1, except tourist (B2) visa, may also attend Cañada College.

Cañada College's catalog and schedule of classes are available at the college website, www.canadacollege.edu.

The current estimate of annual expenses for International Students is \$17,000 (including \$740.00 for the San Mateo County Community College District medical and hospitalization plan).

International students are required to make a \$500.00 pre-payment towards their first semester's tuition, enrollment fees and health fees upon acceptance and prior to their admission to the College.

High School Students/College Connection

Students attending high school may register concurrently for Cañada College classes with the approval of the Dean of Counseling and Enrollment Services. Interested students must submit an application with the required recommendation, together with their high school transcript.

Applications are available via the college website, www.canadacollege.edu/ce, from the Admissions and Records Office, or at local high schools.

Cost for concurrent enrollment:

1. Concurrently enrolled high school students are exempted from payment of the enrollment fee and health fee if registered for less than 12 units.
2. Parking fees must be paid if parking a vehicle on campus.

Because of enrollment limitations, high school students may not be permitted to enroll in classes in certain impacted programs. Many college courses have prerequisites and/or co-requisites. Students who wish to enroll in English, English as a Second Language, Mathematics, or any course that has an English or Math prerequisite must take the Cañada College placement exam.

High school students will be admitted only into courses that have space available. The final decision for admission of any student to any class rests with Cañada College. Courses available to high school students under this program are not to supplant or eliminate any courses scheduled by a particular high school. The student will be required to fulfill necessary prerequisites for courses.

Students participating in the College Connection Program will receive college credit for all coursework successfully completed. Students may request that a transcript of all college coursework completed be sent to their high school registrar to be considered for credit toward high school graduation.

Revision of Regulations

Any regulation adopted by the administration of Cañada College or the San Mateo County Community College District will be considered an official ruling and will supersede regulations on the same subject which appears in this catalog and other official publications, provided that the new regulation has been officially announced and posted.

Registration

Steps to Enroll in Classes for New Students, Former Students, and New Transfer Students

Si necesita ayuda en Español para entener el proceso de matriculation, presentese en la oficina de admission en el edificio #9 y pregunte por alguien que hable español. Sera nuestro placer servirle.

Matriculation

Matriculation is a state mandated process that describes a partnership that you, the student, and Cañada College agree to form for the purpose of realizing your individual educational goals. This partnership acknowledges responsibilities of both the College and YOU, the student, to reach those goals through established programs, policies and requirements currently in place.

Complete the matriculation steps prior to registration if you have one or more of the following educational goals:

- obtain a vocational certificate,
- obtain an Associate degree,
- transfer to a four-year college or university, or
- are undecided about your specific educational goals but are considering the above options.

You are exempt from matriculation if on your application you have indicated one of the following:

- have completed an Associate or higher degree, or
- have enrolled in classes for personal enrichment only and do not intend to earn a degree or certificate, or
- are primarily a student at another educational institution and taking courses at Cañada College to meet requirements of that institution.

If you are EXEMPT from matriculation, after your application is processed, you will receive, via email or mail, an assigned date to register via WebSMART.

Matriculation Steps

Step #1 - Admissions:

Apply online at <http://websmart.smccd.edu> or complete the Application for Admission located in the center insert of the class schedule.

After your Application for Admission has been processed, you will receive a Registration Ticket to guide you through the remaining matriculation steps.

Step #2 - Placement Tests/Assessment:

From the Placement Test Schedule, select a date to complete the testing requirement, or make an appointment via WebSMART.

- Placement test results are valid for up to two years.
- Placement tests in English or English for Non-Native Speakers (ESL) and Mathematics are given to all new matriculating students.
- Placement tests are required for enrollment in English, English for Non-Native Speakers, mathematics courses, and any course that has an English, reading, or mathematics prerequisite.

- Placement tests are required for most of the Associate degree and university level courses.

You are automatically EXEMPT from taking the Placement Tests and may move directly to Step #3 if you fall into one of the following categories:

- Have taken the Placement Tests at Cañada College or CSM or Skyline College within the last two years and the test results are available.
- Are a former student or new transfer student from another accredited college in the United States and have completed course work in Mathematics and/or English with a grade of “C” or better. (Bring unofficial transcripts or other evidence of grades to your counseling appointment to verify this exemption.)
- Can show evidence of completing the College Board Advanced Placement Test (AP) in English Language or in English Literature with a score of 3, 4, or 5.
- Can show evidence of completing the College Board Advanced Placement Test (AP) in Mathematics with a score of 3, 4, or 5.

Bring evidence of test scores or course completion to your counseling appointment described in Step #4.

Step #3 – College Orientation

The College Orientation Program is REQUIRED and provides information about registration procedures, college policies, academic expectations, educational goals, and student services. Sign-up for an orientation session at the Counseling Center or call (650) 306-3452 OR complete the Online College Orientation: <http://canadacollege.edu/admissions/orientation.html>.

Step #4 - Counseling

Meet with a Counselor to discuss your assessment results and select courses appropriate to your academic readiness and educational and career goals.

Step #5 – Register for Classes

Return your completed Registration Ticket to the Admissions and Records Office to receive an assigned registration date. Use WebSMART to register for your classes. Complete information regarding registration dates and procedures is published in the College Schedule of Classes.

After you have registered and paid for classes, you are officially enrolled at Cañada College. Be sure to attend the first class meeting. Work with your professors to meet the challenges and demands of each class. Use Counseling services regularly. At least once a semester, schedule an appointment to meet with a Counselor to 1) discuss progress toward your academic goals, 2) develop or update your Student Educational Plan (SEP), and 3) learn about important student services that enhance student success.

Matriculation waivers/exemptions: If you wish to request an exemption of any matriculation requirement, petitions are available in the Office of Admissions and Records. The Dean of Counseling and Enrollment Services or the Assistant Registrar reviews petitions, and applicants are notified of the status of the petition within five business days.

Students with a disability needing assistance with any part of the matriculation process should contact the Disabled Student Program at (650) 306-3490, TDD: (650) 306-3161.

Schedule of Classes

Complete information regarding registration dates and procedures is published in the College Schedule of Classes for each semester. The schedules are available on the Cañada campus, in local high schools and Public Libraries, and on our web site: www.canadacollege.edu.

Program Changes

Once you have completed registration, you may change your program via WebSMART. Once a class has started, an authorization code is required and can be obtained from the instructor. Students may use WebSMART the entire semester to register for short-term classes that begin after the start of the semester and to drop classes.

Enrollment Limitations

Multiple and Overlapping Enrollments

Students may not enroll in two or more sections of the same credit course during the same term. Students may not register in two courses which meet at the same time or have overlapping times. Exceptions to this rule may be approved under circumstances of academic necessity (not scheduling convenience). In addition, approval requires submission of a documented plan describing how the student will make up missed class time under the instructor’s supervision and attendance documentation at the end of the semester. Overlap exception forms are available in the Admissions and Records Office.

Unit Load Limitations

A normal class load for a full-time student for fall and spring semesters is between 12–18 units. No student is permitted to take more than 11 units during the Summer Session or 19 units during the Fall and Spring semesters without special approval of the Academic Standards Committee. Approval forms are available in the Admissions and Records Office. Students working full time should limit their program to six or fewer units. Combinations of work and college study should be carefully discussed with a counselor.

A program of 12 or more units during Fall and Spring semesters, and 6 units during Summer session is considered full-time for athletic eligibility, financial aid, international students (F-1 visa), veterans benefits, Social Security benefits, and most other benefits which are dependent upon student enrollment status.

Limit of Withdrawals

Students are limited to receiving no more than four “Ws” from the same credit course. A “W” shall not be assigned or may be removed if the student withdrew due to discriminatory treatment or retaliation for alleging discriminatory treatment.

Course Repetition

The Board of Trustees of the San Mateo County Community College District has adopted a policy (District Rules and Regulations, Section 6.12) which permits a student to repeat certain courses for credit a maximum of three times (total of four class enrollments) within the SMCCCD.

These courses require increasing levels of student performance or provide significantly different course content each subsequent semester. Such courses will be designated as “may be repeated for credit” in the course description. Courses which are not so designated may not be repeated under this policy. Further information about this policy is included in the chart below, and is available from Cañada College counselors and Division Offices.

Repetition of Courses for Legally Mandated Training

Student will be permitted to repeat courses indefinitely where repetition is needed for the student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment. The grade received each time shall be included for purposes of calculating the student’s grade point average. Students wishing to repeat courses must present documentation that course repetition is necessary to complete legally mandated training requirements.

Repetition of Courses for the Purpose of Grade Alleviation (For the student who has received a Grade of D, F, or NP)

A student who has received a grade of D, F, or NP in a course taken in the San Mateo County Community College District may repeat the course up to two times for the purpose of grade alleviation. This allows a student a maximum of three attempts to successfully complete the

course. The permanent academic record shall be annotated in such a way that all courses attempted remain on the transcript showing a true and complete academic history. A student must submit a Petition to Repeat to the Admissions and Records office in order to attempt a course a THIRD time. If the prior two attempts have resulted in grades of Ds, Fs, or NPs the third attempt will be approved. Course repetition completed at any college of the San Mateo County Community College District will be honored. In no case will the unit value of a course be counted more than once.

Auditing of Courses

In compliance with State regulations, Cañada College has identified certain courses that may be audited. Courses which can be audited shall be performance-type courses or skill-building courses where continued participation adds to the student’s growth and where continued participation strengthens the program itself, or courses in which the subject content changes from semester to semester. To register in a course as an auditor, the student must have taken the course on a credit basis for the maximum times allowable.

An auditor may register only after the Late Registration period has concluded with the professor’s signature on an Add/Drop form and on a space-available basis. A \$15.00 per unit fee, the Health Services

COURSE REPETITION SAN MATEO COUNTY COMMUNITY COLLEGE DISTRICT

No petition for Course Repetition is required if student has:

- 2 substandard grades (D, F, NP)
- 2 substandard grades and 1 W
- 2 substandard grades and 2 Ws

Student can register on WebSMART unless on academic dismissal.

A Course Repeat Petition is required for the reasons below—must be submitted to the Admissions and Records Office at Cañada College. If approved, student will be registered in the course. If the petition is submitted once classes have started, students must follow late registration procedures. In addition to the Course Repeat form, students must obtain the instructor’s authorization to add.

Reason to repeat	Will this petition be approved?
1. Student received an A, B, C, or P and wants to improve grade	No, unless reasons #2, 3, 4, or 5 apply.
2. Course is mandated for training requirements as a condition of continued paid or volunteer employment	Yes – student can repeat unlimited number of times. Must provide statement from employer mandating the course for training.
3. Class content has changed substantially	Yes, for students with standard (A B, C, P) and sub-standard grades (D, F, NP)
4. Most recent course was completed more than five years ago	Yes, for students with standard and sub-standard grades; however student will not earn credit nor will the new grade be used to calculate GPA if previous grade was (A, B, C, or D)
5. Extenuating Circumstances – accident, illness, evidence of care-taking responsibilities, job change, death in immediate family. Documentation is required to support circumstances.	Yes, for students with substandard grades

fee, and the Student Representative fee will be charged at the time of enrollment. Students enrolling as auditors in variable unit classes must enroll in the maximum number of units available for a course.

Fees

The fees listed in this Catalog are those in effect at the time of publication. Fees are subject to change at any time by action of Federal or State statute, the Board of Governors of the California Community Colleges, or the San Mateo County Community College District Board of Trustees. A list of fees is published in each semester's Class Schedule and is available on WebSMART and in this Catalog under Fees.

Enrollment Fee

A state-mandated enrollment fee of \$20 per unit is payable by all students. The enrollment fee is calculated each semester based upon the student's combined enrollments at Cañada College, Skyline College, and/or the College of San Mateo.

The Board of Governors of the California Community Colleges has established a fee waiver program to help students pay the enrollment fee. Information on eligibility requirements, application deadlines, and application forms are available in the Financial Aid Office, in the Class Schedule, and on WebSMART under "Financial Aid Forms."

Students classified as nonresidents of the State of California must pay an additional Nonresident fee. (See details under "Nonresident Tuition Fee.")

Health Services Fee

All students, except high school students or those registering exclusively for Saturday, Sunday, or off-campus courses, are required to pay a \$17 Health Services Fee each semester for day or evening classes, or \$14 for each summer session. This fee provides campus health services and medical coverage for injuries incurred while the student is on campus or attending an off-campus, College-sponsored event.

Students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization may be exempted from paying the Health Services Fee. A petition for a Health Services Fee exemption may be obtained from the Admissions and Records Office, Building 9, first floor, or by calling (650) 306-3226.

Student Representation Fee

The Student Representation Fee of \$1 per student per semester was established by an election of the student body of Cañada College. Under applicable provisions of the California Education Code, the students established the fee by a two-thirds majority of the students who voted in the election. The money collected through the Student Representation Fee will be expended to provide support for students or their representatives who may be stating their positions and viewpoints before city, county and district government, as well as before offices and agencies of local, State, and Federal governments. A student has the right to refuse to pay the Student Representation Fee for religious, political, moral or financial reasons. The fee is not covered by the California Community Colleges Board of Governors Waiver (BOGW) via financial aid and is not refundable unless an action of the College prevents the student from attending. A petition for a Student Representative Fee exemption may be obtained from the Cashier's Office, or by calling (650) 306-3270.

Nonresident Tuition Fee

Students who do not qualify as California residents as determined by the California Education Code must pay Nonresident Tuition fees. Refer to the Class Schedule or the Fees link on the Cañada College Admission/Registration Web page for the current fee rate. The Office of Admissions and Records determines residency status at the time of admission. Refer to the “Residency Requirements” section of this Catalog for more information.

International (F-1 Visa) students pay the Nonresident Tuition plus a nominal capital outlay fee (in addition to the Enrollment fee).

Health Insurance is required of international (F-1 Visa) students that do not have the required level of private health insurance. For current rates call (650) 306-3494.

Student Body Fee (optional)

The voluntary Student Body Fee is \$8 per semester (Fall and Spring only) payable at the time of registration on WebSMART or at the Cashier’s Office. Students who pay the fee receive an Associated Student Body ID Card which entitles them to special discounts at local businesses, movie theaters, shops, restaurants, and on-campus athletic events. Funds collected also help support student activities, services and scholarships. Students must contact the Student Activities Office at (650) 306-3373 for removal or reimbursement of charge if they choose not to pay.

Parking Fee

All persons driving an automobile, truck or van who utilize campus parking facilities during scheduled class hours and final examination periods are required to pay a parking permit fee (motorcycles are excluded if parked in designated motorcycle parking). Students enrolled exclusively in weekend or off-campus classes are exempt. The parking fee is \$40.00 for fall and spring semesters, or \$70 for a two-term (fall/spring) permit, and \$20.00 for the summer session. These fees are nonrefundable except by action of the College. Parking permits may be transferred from one vehicle to another. Replacement permits may be purchased at cost.

One-day parking permits are available for \$2.00 per day from parking permit dispensers.

Students may pay for their parking permits online using WebSMART, or in person at the Cashier’s Office, Bldg. 9, first floor. Up to a certain date, approximately one week before the start of the term, parking permits will be mailed to students as part of the Registration Statement. After this date, students must obtain their permits at the Cashier’s Office, Bldg. 9, first floor.

Students must park in Student lots only. All Staff lots are reserved for staff only. Please refer to the campus map for parking lot locations. While parking in Cañada College campus parking lots, students must obey all campus, local and state regulations.

At the beginning of each term, a grace period of two weeks (one week for summer session) will be in effect in student parking lots only. The grace period does not apply to staff and metered lots and other restricted areas.

Parking spaces are available on a first-come, first-served basis. Therefore, a parking permit is not a guarantee of a parking space. Cañada

College and the San Mateo County Community College District do not accept liability for vandalism, theft or accidents. Use of campus parking facilities is at the user’s risk. However, any such incidents should be reported to the Campus Security Office, Bldg. 13, Room 28, (650) 306-3420.

Disabled Student Parking

Physically disabled students who drive vehicles to campus must have a state-issued DMV placard. This placard allows parking in designated disabled parking spaces on campus. Students must purchase a student parking permit issued through Cañada College Cashier’s Office. Students with temporary ambulatory disabilities who do not have a placard may receive special parking consideration by contacting DSPS, Bldg. 5, Room 207 or by calling (650) 306-3259, TDD: (650) 306-3161.

Audit Fee

An appropriate per unit audit fee will be assessed at time of registration. See “Auditing of Courses” section in this Catalog for further information.

Transcript Fee

An official transcript summarizing a student’s complete academic record of course work taken at Cañada College, College of San Mateo, and Skyline College will be sent directly to colleges, employers, and other agencies upon written request by the student. Transcripts from high schools and other colleges will not be forwarded. There is no fee for the first two transcripts requested. There is a \$5 fee for each additional transcript requested. Rush Service within SMCCCD, usually within twenty-four hours or less, is available for an additional \$10/per transcript. Rush Service is not available for prior records.

Duplicate Diploma Fee

\$20 duplicate diploma fee.

Returned Check Fee

\$20 per returned check.

Materials Fee

Required in certain classes in which required materials are provided to students. Fees typically range from \$2-8 per class.

Payment of Fees

Fees may be paid in any of the following ways:

- By credit card (using Visa, MasterCard, American Express or Discover), or electronic check via WebSMART at <http://WebSMART.smccd.edu>
- By mailing a check or money order to the Cashier’s Office, Building 9, first floor
- In person at the Cashier’s Office, Building 9, first floor

Outstanding student account balances are subject to referral to a collection agency.

Holds on Student Records

A hold will be placed on a student’s record by the Business Office for fees and any other financial obligations owed to Cañada College, College of San Mateo, and/or Skyline College. Educational records will not be released, including grades, transcripts, certificates, and degrees, while an outstanding balance remains on their account.

Fines

Fines are assessed for failure to comply promptly with library and other campus regulations, and students are required to pay for careless or unnecessary damage to College property. Students delinquent in their financial obligations to the College may not receive grade reports or other records of their work until such delinquencies have been adjusted to the satisfaction of the college authorities.

Refund Policies

Enrollment fees shall be refunded in accordance with the following guidelines:

Prior to the First Day of Instruction

- Students dropping all classes will receive full credit toward future registration fees for the amount of all fees paid. A \$10 processing fee (plus an additional \$50 processing fee for non-resident students and F-1 Visa international students) will be retained by the College if a refund is issued to the student.
- If a parking permit has been issued, it must be returned to the Business Office before a credit or refund of the Parking Fee will be processed.

On or After the First Day of Instruction

- Enrollment Fee/ Nonresident Tuition
Students will receive full enrollment fee and non-resident tuition credit toward future registration fees if they reduce their program or officially drop from all courses within the first 10% of the period of instruction of their courses. Students who officially drop from all courses and request a refund will be subject to a \$10 processing fee. An additional \$50 processing fee will be retained by the College for non-resident and F-1 Visa international students who request a refund. (Example: If a course has 12 meetings, 10% of 12 = 1.2. The College will round up to 2.0. Therefore, to be eligible for a credit or refund, the student must drop no later than the end of the day of the second class meeting.)
- Variable Unit Courses
No Enrollment Fee or Nonresident Tuition refund or credit will be available to students enrolled in variable unit courses who earn fewer units of credit than the number for which they originally registered. Students earning additional units will be charged accordingly.
- Health Services and Parking Fees
Students will receive a full refund through the second week of instruction for semester-length classes and through the first 10% of the instructional period for students enrolled in less than semester-length classes. If a parking permit has been issued, it must be returned to the Business Office before a credit or refund of the Parking Fee will be processed.
- Student Body Fee
Students will receive a full refund upon request and within the published deadlines listed in the Schedule of Classes.
- Student Representation Fee
The Student Representation Fee will be waived for students who refuse to pay for religious, political, moral, or financial reasons. This waiver must be submitted in writing within the

first 10% of the period of instruction of the course(s).

Credit balances remain on student accounts for a maximum of five (5) years. A student may either choose to maintain a credit balance on account or contact the Business Office to arrange for a refund. Refunds are NOT issued automatically. Fees paid by personal check will require 30 days for bank clearance before refunds can be processed. To be eligible for a refund/credit, a student must officially drop from a course. Student records are automatically held until all debts to the District colleges have been cleared.

Grades & Academic Standing

Academic Record Symbols (Grades) and Grade Point Average

Grades from a grading scale shall be averaged on the basis of the point equivalencies to determine a student's grade point average. The highest grade shall receive four points, and the lowest grade shall receive zero points, using only the following evaluative symbols:

Symbol	Definition	Grade Point
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0
P	Pass (satisfactory: C or better; units not counted in GPA)	
NP	No Pass (less than satisfactory or failing; units not counted in GPA)	

The GPA (grade point average) is determined by dividing the total number of grade points earned by the total number of units attempted.

The following non-evaluative symbols are used at Cañada College:

I-Incomplete

This symbol is used if academic work is not completed by end of term, where unusual circumstances were a factor for the student not completing the coursework, and the instructor agrees to provide an extension for when that work can be submitted. The work to be completed and the time allowed for its completion shall be set forth by the instructor in a written record. The record indicates the grade to be assigned in lieu of removal. The student will receive a copy of the record. A copy of the record will also be filed with the Admissions and Records Office. A final grade will be assigned by the instructor when the outstanding academic work has been completed within the required period. The grade determined by the instructor will be entered in the permanent record.

An "Incomplete" must be made up within one year following the end of the term in which it was assigned. Established College procedures may be utilized to request a time extension in cases involving unusual circumstances. The "I" shall not be used in the computation of grade point average.

IP-In Progress

This symbol is used in the permanent record of the student to confirm current enrollment and/or to indicate that the course extends beyond the normal end of the term. It indicates that work is in progress and that unit credit and a grade will be assigned when the course is completed. The "IP" shall not be used in the computation of grade point average.

RD-Report Delayed

This symbol is used by the Admissions and Records Office to indicate a delay in reporting the grade due to circumstances beyond the control of the student. It is replaced by a permanent symbol as soon as the

grade is made available. The "RD" shall not be used in the computation of grade point average.

W-Withdrawal

Note: It is the responsibility of the student to withdraw from a class. Any student not following the established withdrawal procedures may be assigned an "F" or "NP" grade by the instructor.

The term "drop" is used to refer to a specific period at the beginning of a term whereby removing one-self from enrollment will result in no record of enrollment in the class for transcript purposes. A student may drop from a semester length course during the first four weeks of instruction and no notation will be made on the academic record of the student. In courses of less than a regular semester duration, a student may drop prior to the completion of 30% of the period of instruction and no notation will be made on the academic record of the student.

A student may withdraw from a semester length course, whether passing or failing, at any time after the fourth week of instruction through the last day of the fourteenth week of instruction. A "W" symbol shall be noted on the student record. In courses of less than a regular semester duration, a student may withdraw from the 30% period of completion on instruction to the completion of 75% of the period of instruction. A "W" grade shall be noted on the student record.

Students will be limited to receiving no more than 4 "Ws" as a result of withdrawing from the same course.

Late Withdrawal

The academic record of a student who remains in class beyond the time periods set forth above must reflect an authorized symbol other than "W." However, after the end of the fourteenth week (or after the 75% period of instruction for a course less than semester length) withdrawal may be authorized in the case of extenuating circumstances. These are defined as verified cases of accident, illness or other circumstances beyond the control of the student. An approved withdrawal, under these conditions, shall be recorded as a "W." Petitions for late withdrawal may be obtained from the Admissions and Records Office or at the College website: www.canadacollege.edu.

MW-Military Withdrawal

Military withdrawal will be authorized when a student who is a member of an active or reserve U.S. Military Service unit receives orders compelling a withdrawal from courses. Upon verification of such orders, a notation of "MW" may be made on the student record. Military withdrawals are not counted in probation or dismissal calculations. Further information may be obtained at the Admissions and Records Office.

Grade Reports

After the end of the semester, the final grade report is available to students through Cañada's website: www.canadacollege.edu. Students may also make a request at the Admissions and Records Office to have a copy mailed to them. The official final grade report becomes a part of the student's permanent record.

Grade Option

Each division of the College may have designated letter grade courses in which a student may elect to receive Pass/No Pass (i.e., Pass/Fail).

Grade option courses allow students to explore various fields of study and to broaden their knowledge, particularly in fields outside their major, without jeopardizing their grade point average. Both methods of grading require the student to complete all assignments, exams, and/or class projects.

Students who elect the pass/no pass option are required to sign appropriate forms in the Admissions and Records Office or choose the P/NP option on WebSMART. This decision must be made within the first 30% of the class length and is irreversible.

Courses taken on a pass/no pass basis may or may not be applicable toward fulfillment of the major, the certificate or general education requirements. In addition, four-year colleges and universities vary widely in the number of units of "Pass" grades they will accept. Students should consult the catalog of the college to which they plan to transfer to determine what limitations apply.

The use of courses graded "Pass" to satisfy major or certificate requirements must be approved by the Division Dean, in consultation with members of the Division faculty. A maximum of 12 units toward an associate degree or 6 units toward a certificate may be in grade-option courses in which a student has elected to receive a grade of "Pass."

Each division of the College may also designate courses in which all students are evaluated on a pass/no pass basis only. "Pass" grades earned in these courses are exempt from the 12/6 unit maximum described in the paragraph above.

Final Grades and Grade Challenges

In the absence of mistake, fraud, bad faith, or incompetency, the determination of the student's grade by the instructor shall be final once it has been filed and recorded by the Admissions and Records Office.

An earned grade of A, B, C, D, F, W, P, NP may be changed by the instructor within one year if a clerical error is determined to have been made in calculating the grade. Grades cannot be changed on the basis of a student completing course work after the assignment of the final grade.

Students who believe a grade was assigned incorrectly should first attempt to resolve the matter with the instructor; if unsuccessful, they should contact the Division Dean; and, finally, submit a petition to the Vice President of Instruction.

Academic Standing

Academic standing is based upon all coursework completed in the San Mateo County Community College District (includes Cañada, CSM, and Skyline).

Scholastic Honors

A Dean's List of Students who achieve academic honors is posted at the end of each semester containing the name of each student who has completed 12 units or more of work for a letter grade during that semester with a grade point average of 3.3 or higher. A part-time students Dean's List is for part-time students who have completed

at least 12 units, completing at least 6 units and not more than 11.5 units within a term, and have earned a 3.3 GPA.

Academic honors are awarded at graduation to students who have attained a 3.3 cumulative grade point average in all degree applicable coursework including degree applicable coursework from transfer institutions. High honors are awarded to students who have attained a 3.5 average or above.

Grade Point Deficiency

The Academic Standards Policy is based on a cumulative grade point average of "C," the minimum standard of progress toward graduation or transfer.

All units and grade points are on a cumulative basis. At all times, a student must maintain a cumulative grade point total that is double the total units attempted ("C" average). If a student undertakes 12.5 units in one semester and 15.5 in a second semester, his or her cumulative units are 28, requiring a grade point level of 56. (Example: $56/28=2.00$ GPA.)

Any grade point total less than twice the attempted units is regarded as deficient. (Example: $55/28=1.96$ GPA)

Pass/No Pass courses will not affect a student's grade point deficiency.

Grade Alleviation

A student who has received a grade of D, F, or NP in a course may repeat the course twice for purposes of grade alleviation. Upon satisfactory completion of the repeated course (grade A, B, or C) the Admissions and Records Office will use the grade of the repeated course in computation of the grade-point average. The original grade will remain on the transcript, but will no longer be computed in the grade-point average. Course repetition completed at the other two colleges of the San Mateo County Community College District will be honored; course repetition involving work completed at a non-district institution may be honored upon request. Students may apply for such consideration to the Admissions and Records Office.

Courses in which the student has received grades of A, B, C or P are not subject to the provisions of this policy. Under special, educationally justifiable circumstances, repetition of credit courses other than those for which substandard work has been recorded may be permitted. The student must obtain prior written permission from the Academic Standards Committee before such course repetition will be authorized. Grades awarded for courses repeated under this provision shall not be considered in calculating the student's grade point average and in no case will the unit value of the repeated course be counted more than once.

Academic Renewal Policy

Up to 36 semester units of substandard course work (i.e., D, F, and NP) within a maximum of two semesters and one summer session which are not reflective of the student's current demonstrated scholastic ability may be alleviated and disregarded in the computation of the grade point average under the following conditions:

1. A period of at least one year must have elapsed since the course work to be alleviated was completed, and
2. A student seeking the alleviation must have since completed 9 units of course work with a 3.5 cumulative grade point average, or 15 units of course work with a 3.0 cumulative grade point average, or 21 units of course work with a 2.5 cumulative grade point average, or 24 units of course work with a 2.0 cumulative grade point average, and
3. The substandard coursework to be alleviated must have been taken at Cañada College, College of San Mateo, or Skyline College. However, the course work upon which the application for alleviation is based may be completed at any college or university accredited by the Western Association of Schools and Colleges or an equivalent accrediting agency.

The academic renewal policy may be applied when alleviation of prior course work is necessary to qualify a student for financial aid or admission to a program or transfer to another institution or for completion of a certificate or degree program. To request Academic Renewal, a student must file a formal petition to the Admissions and Records Office located in Building 9, first floor.

When academic course work is alleviated from the computation of the grade point average, the student's permanent academic record shall be properly annotated in a manner to ensure that all entries are legible, providing a true and complete academic history.

Probation

A student is placed on academic probation using the following criteria:

Academic probation based on grade point average: A student who has attempted at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation if the student has earned a grade point average below 2.0 in all units which were graded on the basis of the grading scale (see page 17).

Academic probation based on failure to maintain satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation when the percentage of all enrolled units for which entries of W, I, and NP are recorded reaches or exceeds 50 percent.

The two probationary criteria described above will be applied in such a manner that a student may be placed on probation under either or both systems, and subsequently may be dismissed under either or both systems.

Removal from Probation

A student placed on academic probation on the basis of grade point average shall be removed from probation when his/her cumulative grade point average is 2.0 or higher.

A student placed on academic probation on the basis of failure to maintain satisfactory progress shall be removed from probation when the percentage of units completed is above 50 percent.

The student is required to meet with a counselor and complete a Petition for Reinstatement each semester until GPA reaches 2.0, or successful completion of classes reaches over 50%, or both of the above.

Dismissal

A student in probationary status shall be subject to dismissal if in any two subsequent semesters either or both of the following criteria are applicable:

- a. The student's cumulative grade point average is less than 1.75 in all units attempted.
- b. The cumulative total of units in which the student has been enrolled for which entries of W, I, and NP have been recorded reaches or exceeds 50 percent.

A student in dismissal status must meet with a counselor in the Student Success Program in order to be reinstated to the College and enroll in classes. The Student Success Program consists of a workshop and meeting with a counselor during the semester. Normally, students in dismissal status are restricted to a certain number of units. The student must demonstrate academic progress during the semester after reinstatement in order to enroll in subsequent semesters. Students who wish to waive the Student Success Program requirements must receive approval from a counselor or the Dean of Counseling and Enrollment Services.

Student Notification

If the student is on probation or in dismissed status, he/she will receive notification in writing at the end of the semester.

Credit by Examination

A student who wishes to earn credit by examination must first receive written certification from the Admissions and Records Office indicating that the following criteria have been met:

- The student is registered at Cañada and in good standing, with a GPA of 2.0 or better.
- The student can demonstrate that he/she is qualified, through previous training or instruction, to successfully complete such examination.
- The Division Dean, in consultation with faculty, will make the decision to offer or not offer the exam based upon: a) the availability of a faculty member to administer the exam, and b) an assessment of the student's readiness to take the exam.
- Only courses which transfer to four-year baccalaureate granting institutions are available for credit by exam (this excludes all 800 level courses and certain other courses), except for certain occupational program courses. Laboratory-based science courses and Cooperative Education courses are not available for credit by exam.
- A letter grade or Pass/No Pass grade will be assigned upon successful completion of credit by examination and the student's academic record shall be clearly annotated to reflect that credit has been earned by examination. A student may challenge a course for credit by examination only one time. Petitions for credit by exam may be obtained from the Admissions and Records Office.

Credit may be earned by examination provided that the examination has been approved or prepared, administered and graded by faculty and other designated authorities of Cañada College.

A maximum of 12 units toward an Associate Degree or 6 units toward a Certificate may be earned for courses for which credit has been earned by examination. Credits earned by examination cannot be used to satisfy the 12 unit residence requirement for the Associate Degree or Certificate of Completion.

College Board Advanced Placement Test (AP) Policy

Cañada College grants credit toward the Associate Degree for all College Board Advanced Placement Tests on which a student scores 3 or higher. Students should send an official copy of AP results to the Admissions and Records Office and consult with a College Counselor. See pages 47–48 for more information.

CLEP - College Level Examination Placement

CLEP enables those who have reached the college level of education outside the classroom to demonstrate their achievement and to use the test results for college credit. Those students will be granted six units of credit for each of the five sections of the General Examination of CLEP if they score 500 or more. Credit for Subject Examinations will be given in those areas where there are similar courses offered at Cañada College.

Prerequisites, Corequisites, and Recommended Preparation

The Board of Trustees of the San Mateo County Community College District allows colleges to establish prerequisites, corequisites, and recommended preparation for courses and educational programs. Prerequisites and corequisites must be determined to be necessary and appropriate and must be established in line with Title 5 regulations in the California Administrative Code.

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program. Prerequisites are so designated in course descriptions in this Catalog. A prerequisite course must be completed successfully before enrolling in a course which follows. Successful completion is defined as earning a grade of “C” or better.

A corequisite is a course that a student is required to take simultaneously in order to enroll in another course. Corequisites are so designated in course descriptions in this Catalog.

Advisories or recommended preparation for a course or program is a condition that a student is advised, but not required, to meet before or in conjunction with enrollment. Advisories are designated as “recommended” in course descriptions in this Catalog.

Students who wish to challenge a prerequisite or corequisite must complete a Petition to Challenge a Prerequisite form. Petitions are available from Admissions and Records, Building 9, first floor; or the Cañada College website at www.canadacollege.edu.

Prerequisite Checking and Enrollment blocks

The San Mateo County Community College District enforces all prerequisite and corequisite requirements. Most prerequisites are subject to computerized prerequisite checking and students who have not met the prerequisites are blocked from enrolling in the course. Students may be dropped from a course for not meeting the prerequisite requirements.

How Can Students Meet Prerequisite Requirements?

There are several ways for students to meet prerequisite requirements.

1. Students may take the prerequisite courses.
2. Students may go through the placement test/assessment process and place into the target course.
3. Students can complete the prerequisite course or an equivalent course at another accredited college or university in the United States. This equivalency must be approved by the Dean of Counseling and Enrollment Services.
4. Students may meet prerequisites through the College Board Advanced Placement tests. The use of AP Tests as prerequisites must be approved by the Dean of Counseling and Enrollment Services.

How Can Prerequisites and Corequisites Be Challenged?

Prerequisites and Corequisites may be challenged. Challenges must be submitted prior to the first day of the term. Prerequisite Challenge Petition forms are available in the Counseling Office or Admissions and Records. The completed Prerequisite Challenge Petition, a letter justifying the challenge, and all documentation (transcripts, samples or work, letters) must be submitted to the Office of Counseling and Enrollment or Admissions and Records. The challenge is resolved within 5 working days and an appeal to the decision may be made through the Office of the Vice President of Student Services. A challenge to a prerequisite or corequisite must be based on one of the following grounds.

1. The prerequisite or corequisite is not established in accordance with district policies or Title 5 regulations.
2. The student has the knowledge and ability to succeed in the course despite not meeting the course prerequisite.
3. The student is subject to undue delay in goal attainment because the prerequisite or corequisite has not been made reasonably available.
4. The prerequisite or corequisite is unlawfully discriminatory or applied in an unlawfully discriminatory manner.

Transcripts

Official transcripts will be sent to employers, colleges and other institutions upon a student’s written request. Transcripts may be requested through the student’s WebSMART account, under Student Records. Requests are generally processed within 5 working days from date received. Only courses taken at Cañada College, CSM, and/or Skyline appear on the transcript; transcripts from high schools and other colleges will not be forwarded. The first two transcripts requested within SMCCCD are free. Each additional transcript costs \$5.00. Additional \$10 fee for a rush transcript; not available for prior records. Official transcripts given directly to the student may be opened only by the receiving institution.

Incoming Transcripts

Currently enrolled students who wish to have their academic records from other accredited institutions within the United States evaluated by the Admissions and Records Office and have those units placed on their permanent record at Cañada College may do so by requesting their official transcript to be sent directly to the Admissions and

Records Office. Upper-division credits completed at a four-year college or university will not be accepted or counted toward an AA/AS Degree or Certificate at Cañada College. Lower division coursework completed at a college or university outside the United States will be considered for inclusion on a transfer student's record at Cañada College only after the transcript from the foreign institution has been evaluated by an approved agency which is able to provide a translation of the transcript, and a detailed report which includes subject breakdown, grades, upper or lower division, semester or quarter and number of units completed. Students should contact the Admissions and Records Office for the names of approved agencies. All lower division degree applicable coursework will be used to calculate the student's Grade Point Average.

Transferring within the District

Students may take classes at more than one of the San Mateo Community College District. Students may also transfer from one College within the San Mateo County Community College District to another without penalty, although differences in curriculum offerings among the three colleges may exist. District students who transfer from one District College to another receive full credit for instruction completed at any of the SMCCD Colleges. Individual courses taken at a particular College within the District that satisfy an area in the associate degree general education pattern, statutory, and/or specific area requirements shall be accepted by the other two District colleges as satisfying those same requirements.

Students who have completed the entire General Education pattern, basic competency, and statutory and specific area requirements at one District College shall be determined to have completely fulfilled all of those same areas for graduation at any of the District Col-

leges. Upon transferring to another District College, students shall be required to complete only those courses applicable toward the major for the Associate Degree or Certificate program. Students are expected to meet the major course requirements established by the College to which they have transferred that will issue the Associate degree or Certificate.

Students who have taken course work at more than one of the District's Colleges shall ordinarily be recommended for graduation from the College in which they have taken the majority of their course work.

Units of Work and Credit

A "unit" of college credit usually represents one hour per week of lecture and approximately two hours per week of homework, or 3 hours per week of laboratory for semester-length courses.

Honor Society

Cañada College is affiliated with Phi Theta Kappa, the international honor society of the two-year college, which recognizes the scholarly achievements of over 1.5 million students throughout all 50 states, U.S. territories, Canada, and Germany. The local chapter is the Beta Zeta Nu chapter. Phi Theta Kappa maintains academic standards for both induction and continued membership. New members must complete at least 12 credit hours and attain a GPA of 3.5 or better. Continuing members must maintain at least a 3.25 GPA. Contact the chapter advisor of Phi Theta Kappa for further information.

Student Rights, Responsibilities and Records

The principle of personal honor is the basis for student conduct. The honor system tests on the sincere belief that Cañada College students are mature and self-respecting, and can be relied upon to act as responsible and ethical members of society. Each individual has the obligation to observe the College rules and regulations.

Social or other functions using the name of the College are thereby identified as College functions and become subject to the same standards of conduct and of supervision, whether conducted on or off the campus. Social or other functions for which no College staff member is listed as a sponsor are not considered College functions. Further, no off-campus organizations may use the name of Cañada College or imply College sponsorship in any publicity or other information. Guidelines addressing student cheating and plagiarism are found in the catalog under College Policies.

Privacy Rights of Students

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. These rights include the following:

1. The right to inspect and review the Student's education records within 45 days of the day the College receives a request for access. Students should submit to the Dean of Counseling and Enrollment Services, a written request that identifies the record(s) they wish to inspect. The Dean will make arrangements for access and notify the student of the time and place where the record(s) may be inspected.
2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the Dean of Counseling and Enrollment Services for the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right of a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA.

The Act provides that the College may release certain types of "Directory Information" unless the student submits a request in writing to the Admissions and Records Office that certain or all such information not be released without his/her consent. Currently enrolled students may request that "Directory Information" be withheld by notifying the Admissions and Records Office in writing each term or semester. Such requests must be submitted within two weeks after the first day of instruction.

"Directory Information" at the College includes: (1) student's name and city of residence, (2) email address, (3) participation in recognized activities and sports, (4) dates of enrollment, (5) degrees and awards received, (6) the most recent previous educational agency or institution attended, and (7) height and weight of members of athletic teams.

A copy of the Family Educational Rights and Privacy Act (Sec. 438, P.L. 93-380) is available in the Admissions and Records Office, Building 9, Administration, during normal business hours or on the web.

Student Right-to-Know and Campus Security Act

In order to make Cañada College a safe and pleasant environment for students and employees, the College has established procedures in compliance with the Student Right-to-Know (SRTK) and Campus Security Act (Federal Public Law 101-542). Persons seeking information concerning Cañada College law enforcement procedures, crime prevention efforts, and crime statistics should contact the College Security Office, Building 13, Room 28, (650) 306-3420.

The Act also requires institutions to make available the completion or graduation rate of certificate or degree-seeking full-time students. A paper copy of this information may be obtained at the Admissions and Records Office, Building 9, first floor, (650) 306-3226.

More information about SRTK may be found on the California Community Colleges Chancellor's Office website at <http://srtk.cccco.edu/index.asp>.

Academic Integrity Policy

As members of the college community, students at Cañada are expected to demonstrate integrity in all academic endeavors. Students are evaluated on their own merits, so they should protect academic integrity at Cañada College and be proud of their achievements.

General principles of academic integrity include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others and to avoid using another's work as one's own. Faculty, with the full support of the College, have the right to take standards of academic integrity into account when assigning grades. All students are expected to understand and abide by these principles.

Any act which gains or is intended to gain an unfair academic advantage or which compromises the integrity of the academic standards of the college may be considered an act of academic dishonesty.

Forms of Academic Dishonesty:

Violations or attempted violations of academic integrity include, but are not limited to: cheating, fabrication, plagiarism, multiple submissions, or facilitating academic dishonesty. Please note that culpability is not diminished when academic dishonesty occurs in drafts which are not the final version. Also, if the student receives any type of assistance or disability accommodations in the preparation or submission of materials, the student is expected to proofread the results and is responsible for all particulars of the submission.

Cheating—failure to observe the expressed procedures of an academic exercise, including but not limited to:

- communicating with fellow students during an exam, copying material from another student's exam, allowing another student to copy from an exam, allowing another person to take a quiz, exam, or similar evaluation in lieu of the enrolled student
- using unauthorized materials, information, or study aids (e.g., textbook, notes, data, images, formula list, dictionary, calculator, etc.) in any academic exercise or exam
- unauthorized collaboration in providing or requesting assistance, such as sharing information on an academic exercise or exam
- unauthorized use of another person's data in completing a computer exercise
- using computer and word processing systems to gain access to, alter and/or use unauthorized information
- altering a graded exam or assignment and requesting that it be regraded – submission of altered work after grading shall be considered academically dishonest, including but not limited to changing answers after an exam or assignment has been returned or submitting another's exam as one's own to gain credit
- attempting to hinder the work of another student

Fabrication—falsification or invention of any information in an academic exercise, including but not limited to:

- altering data to support research
- presenting results from research that was not performed—submitting material for lab assignments, class projects or other assignments which is wholly or partially falsified, invented or otherwise does not represent work accomplished or undertaken by the student
- crediting source material that was not used for research
- falsification, alteration or misrepresentation of official or unofficial records or documents including but not limited to academic transcripts, academic documentation, letters of recommendation, and admissions applications or related documents

Plagiarism—the presentation of another's words, images or ideas as if they were the student's own, including but not limited to:

- the submission of material, whether in part or whole, authored by another person or source (e.g., the internet, book, journal, etc.), whether that material is paraphrased, translated or copied in verbatim or near-verbatim form without properly acknowledging the source (i.e. all sources of information must be cited in work submitted for a grade)

- the submission of material edited, in part or whole, by another person that results in the loss of the student's original voice or ideas (i.e. while an editor or tutor may advise a student, the final work submitted must be the work of the student, not that of the editor or tutor)
- translating all or any part of material from another language and presenting it as if it were student's own original work
- unauthorized transfer and use of another person's computer file as the student's own
- unauthorized use of another person's data in completing a computer exercise

Multiple Submissions—resubmission of a work that has already received credit with identical or similar content in another course without consent of the present instructor or submission of work with identical or similar content in concurrent courses without consent of all instructors.

Facilitating Academic Dishonesty—assisting another to commit an act of academic dishonesty, including but not limited to:

- taking a quiz, exam, or similar evaluation in place of another person
- allowing one student to copy from another
- attending a course posing as another student who is officially registered for that course
- providing material or other information (e.g., a solution to homework, a project or other assignments, a copy of an exam, exam key or any test information) to another student with knowledge that such assistance could be used in any of the violations stated above.
- distribution or use of notes or recordings based on college classes without the express permission of the instructor for purposes other than individual or group study. This includes, but is not limited to, providing materials for distribution by services publishing class notes. This restriction on unauthorized use applies to all information distributed or in any way displayed for use in relationship to the class, whether obtained in class, via email, on the Internet or via any other media.

*Some parts of this document were borrowed from the academic integrity policies of UCLA, De Anza College and USC. Modifications were made in order to address the specific needs of the Cañada College community.

Consequences of Academic Dishonesty:

Disciplinary sanctions may be applied in cases of academic dishonesty. Depending on the seriousness of the infraction, a student may:

- Receive a failing grade on the test, paper, or examination.
- Have his/her course grade lowered or fail the course.
- Under the District standards of Disciplinary Sanctions, the student may be subject to:
- A Warning: An instructor may give written or verbal notice to a student that continuation or repetition of specified conduct may be cause for further disciplinary action.
- Temporary Exclusion From An Activity Or Class: An instructor may remove a student who is in violation of the guidelines for student conduct for the duration of the class period or activity

during which the violation took place and, if necessary, for the day following. The instructor shall immediately report such removal to the college chief executive officer or his/her designee for appropriate action.

- Censure: The Vice President, Student Services may verbally reprimand a student or may place on record a written statement which details how a student's conduct violates District or College regulations. The student receiving such a verbal or written statement shall be notified that such continued conduct or further violation of District/College rules may result in further disciplinary action.
- Disciplinary Probation: The Vice President, Student Services or his/her designee may place a student on disciplinary probation for a period not to exceed one semester. Repetition of the same action or other violations of District/College rules and regulations during the probationary period may be cause for suspension or expulsion. Disciplinary probation may include one or both of the following: a. Removal from any or all College organization or offices; or b. Denial of privileges of participation in any or all College or student sponsored events.
- Disciplinary Suspension: The termination of student status for a definite period of time. A suspended student may not be present of campus and is denied College privileges including class attendance and all other student body or College granted privileges. Refer to Suspension Policy for details.
- Expulsion: A permanent termination of student status and all attending rights and privileges. Expulsion of a student is accomplished by action of the Board of Trustees on recommendation of the college chief executive officer and the Chancellor. An expelled student shall not be allowed to register in any subsequent semester without the approval of the chief executive office of the College. Refer to Expulsion Policy or details.
- If a sanction entails any action greater than a written or verbal notice, the instructor must submit a Notice of Student Violation of the Cañada College Academic Integrity Policy to the Vice President, Student Services for review and appropriate follow up. This form will identify the infraction and the sanction, and should be signed by both the student and instructor.
- If a student receives any of these sanctions, he/she must first address his/her concerns with the instructor. If the student believes that the instructors' decision is unfair, the student may appeal the decision to the Vice President of Student Services in accordance with the Student Discipline Policy and Appeals Process.
- The Vice President of Student Services maintains a record of students who have engaged in academic dishonesty. This information is used to identify and discipline students who have been reported for academic dishonesty more than once, and may be shared with other faculty in whose classes the student is enrolled.
- Any record of academic dishonesty will be maintained in the Vice President of Student Services's records for a period of two years at which time, barring further infractions, it will be permanently removed.

Student Grievances and Appeals

Initial College Review

Students are encouraged to pursue their academic studies and become involved in other college sponsored activities that promote their intellectual growth and personal development. The college is committed to the concept that, in the pursuit of these ends, students should be free of unfair and improper actions on the part of any member of the academic community. If, at any time, a student feels that he or she has been subject to unjust actions or denied his or her rights, redress can be sought through the filing of a grievance, or an appeal of the decision/action taken in response to a grievance, within the framework of policy and procedure set forth below.

College Channels

The chart below summarizes the appropriate college channels to be utilized by any student wishing to seek redress. For further information concerning any aspect of student grievances or rights of appeal, students should contact the Office of the Vice President, Student Services. As an inherent right, basic to the concept of due process, students may elect to appeal any decisions or actions taken to the President of the College, to the Chancellor-Superintendent of the District, and ultimately to the Board of Trustees. All grievances, or appeals of the decision/action taken in response to a grievance, will be dealt with in a timely manner.

College and District Appeal Procedures

At any time during the process outlined below, informal resolution of a grievance may be sought by mutual agreement.

I. Step 1 - College Procedure

Before initiating formal grievance procedures, the student should attempt to resolve the dispute informally with the staff member

concerned. If the dispute is not resolved, the student may initiate a formal grievance in accordance with the procedures set forth below.

A. First Level

The initial grievance must be filed with the administrator, or appropriate committee, responsible for the area in which the dispute arose. In presenting a grievance, the student shall submit a written statement to include, where appropriate, the following information:

Attendance Regulations

Regular attendance in class and laboratory sessions is an obligation assumed by each student at the time of his/her registration. When a student fails to attend class, he/she misses the content of the session, and course continuity is lessened. When failure to attend class places a student's success in jeopardy, the instructor may drop the student from the class.

Total hours of absence which exceed twice the number of hours a class meets in a week define "excessive absence" as used by many instructors in dropping students for nonattendance. Instructors may, however, utilize stricter attendance requirements.

Absence due to participation in college-sponsored activities may be considered excused when the student informs and receives permission from the instructor in advance of the absence and makes up all work missed.

A student dropped from any class for nonattendance may appeal in writing to the Division Dean within five College calendar days of such a drop if the student thinks the absences should be excused, and reinstatement in class can be justified. Students may, with the permission of the instructor, remain in class while their appeal is being reviewed. A recommendation regarding the appeal will be forwarded to the instructor whose decision is final.

Emergency Leave of Absence

A student who finds it necessary to withdraw from all enrolled courses at any time after registration must obtain a petition for semester leave of absence. This petition may be obtained from the Health Center if the emergency is of a medical nature. A petition for non-medical emergency leave of absence may be obtained from the Admissions and Records Office. It is the student's responsibility to complete the petition process. The leave of absence shall only be used when verified circumstances beyond the student's control force a complete withdrawal from all courses.

A student absent 5 days or more with a medical problem should notify his/her instructor(s).

Policy of Non-discrimination

Cañada College is committed to equal opportunity regardless of age, gender, marital status, disability, race, color, sexual orientation, religion, national origin, or other similar factors, for admission to the College, enrollment in classes, student services, financial aid, and employment in accordance with the provisions of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 (45CRF 86), Section 504 of the Rehabilitation Act of 1973 (P.L. 93-112), and the Americans with Disabilities Act of 1990.

It is important that students, staff, and all others associated with the College understand the importance of reporting concerns about possible violations of this policy. The College's commitment to equal opportunity demands full investigation of possible violations and an opportunity for a fair and impartial hearing on any matter relating to these laws and policies.

Any person seeking information concerning these laws and policies or claiming grievance because of alleged violations of Title VI of the

Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990 should contact the Vice President of Student Services.

All grievances will be reviewed in terms of Title VI and Title IX law, and persons involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated.

Inquiries regarding Federal laws and regulations concerning non-discrimination in education or the District's compliance with those provisions may also be directed to:

Office for Civil Rights
U.S. Department of Education

San Francisco, CA 94102

Policy on Americans with Disabilities Act

The purpose of the Americans with Disabilities Act (ADA), PL 101-336, is to extend to people with disabilities civil rights similar to those now available on the basis of race, color, national origin, sex and religion through the Civil Rights Act of 1964. It prohibits discrimination on the basis of disability in private sector employment, services rendered by state and local governments, places of public accommodation, transportation, and telecommunications relay services. The ADA says that no covered entity shall discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures; the hiring, advancement, or discharge of employees; employee compensation; job training; and other terms, conditions, and privileges of employment.

Major employment provisions of the ADA require equal opportunity in selection, testing, and hiring of qualified applicants with disabilities (applicants with disabilities may request that special accommodations be made in order to complete these processes); equal treatment in promotion and benefits; reasonable accommodation for applicants and workers with disabilities when such accommodations would not impose "undue hardship"; and prohibits discrimination against workers with disabilities. (This provision is similar to the Civil Rights Act of 1964 and Title V of the Rehabilitation Act of 1973).

Employers may require that an individual not pose a direct threat to the health and safety of others; may not make pre-employment inquiries about an applicant's disability or conduct pre-employment medical exams; and may conduct a test for illegal drug use and prohibit all workplace use of illegal drugs and alcohol.

If you need further information or if there are any problems or complaints on campus regarding compliance, please contact the Vice President of Student Services.

Students or staff seeking further information concerning this policy or claiming grievance because of alleged violation of this policy should contact the Vice President of Student Services to file a written grievance.

Additional Redress

In addition to, and concurrently with, the filing of a written grievance, a student has the right to file a complaint or charges with other appropriate governmental agencies such as the Equal Opportunity Commission, the Office for Civil Rights, the Department of Fair Employment and Housing, the Chancellor's Office of the California Community Colleges, or State or Federal court.

Policy on Smoking

In order to provide a safe learning and working environment for students and employees, smoking is prohibited in all indoor locations, outdoor balconies, terraces and stairs, and within a distance of fifteen (15) feet from any District doorway, entrance to an interior area, or air intake vents. Violation of this policy could lead to disciplinary action under disciplinary procedures.

Policy on Drug-Free Campus

The San Mateo County Community College District and Cañada College, in compliance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, prohibits the use, possession, sale or distribution of alcohol, narcotics, dangerous or illegal drugs or other controlled substances, as defined in California statutes, on District or College property, or at any function sponsored by the District or College. Students are expected to conduct themselves as responsible citizens and in a manner compatible with the community college function as an educational institution. Students are subject to civil authority and to all District and College rules and regulations.

Students found to be in violation of the drug-free campus policy by manufacturing, distributing, dispensing, possessing, or using controlled substances, as defined in California statutes, on any District property will be subject to disciplinary procedures up to and including possible cancellation of registration.

See the Schedule of Classes, or visit our website—www.canadacollege.edu—for information on specific course offerings.

(EOPS) Extended Opportunity Programs & Services

EOPS is a program for educationally and economically disadvantaged students designed to help students work towards a certificate or an AA/AS degree, train for a career, or transfer to a four-year university. - Assistance in applying for financial aid
- Academic support such as tutoring and retention services
- Counseling
- Guidance Classes
- Orientation to College

- Other related services

Students qualify for EOPS if they:

- Meet the State's definition for low income and educationally disadvantaged
- Graduated high school with a GPA of 2.49 or lower
- Have NOT completed a high school diploma, and
- Are at least 18 years of age

For more information, please contact the EOPS/CARE office at 306-3300 or stop by the office located in Building 9, Room 133.

Financial Aid

Financial aid falls into three categories:

Grants/Fee Waivers—Aid which does not have to be repaid and, in most cases, is awarded primarily or solely based on financial need. The major programs of this type include the BOGFW (Board of Governor Fee Waiver) which waives the enrollment fee for California residents; the Federal Pell Grant which is a direct grant payment to the student to meet college and educationally related living costs; Federal SEOG (Supplemental Education Opportunity Grant) which is a direct grant payment drawn on a limited college allocation for students demonstrating the greatest need and meet the priority deadline; Academic Competitiveness Grant (ACG) which is a direct grant payment to students who are US citizens, completed a rigorous high school curriculum and are Pell eligible; TEACH Grant which is a new federal forgivable loan grant for students that plan to teach in high need subjects or Title I schools as determined by the Secretary of Education for four years within the first eight years of graduation. Failure to complete the four year employment service requirement will result in all grant funds converting to a Federal Direct Loan for which the student will

then be required to repay including all accrued interest.; CAL Grant which is a direct grant payment for California residents requiring grade point average (GPA) verification and meeting established income and asset ceilings. Eligibility is determined after submission of GPA and Free Application for Federal Student Aid (FAFSA) by state deadlines (March 2nd and September 2nd award cycles). **Foster Youth** may be eligible for the Chafee Grant and other grant assistance and should contact the Director for further assistance in completing the necessary forms to receive aid.

Federal Work-Study (FWS)—Need-based employment which allows the student to work, generally on campus, to earn funds to meet the costs while attending college. These funds do not have to be repaid and are allocated to eligible students who file the FAFSA and meet the priority deadline on a first-come first-serve basis until fully expended each aid-year.

Loans—Borrowed funds which must be repaid. Cañada College participates in the Federal Family Education Loan Program (FFELP) and Federal PLUS program for parents of dependent undergraduate students. Subsidized and unsubsidized Stafford loans are available to eligible student borrowers. Loan entrance counseling is required prior to any new loan disbursement. If you are considering an alternative loan (a private educational loan), please discuss this with the Director before borrowing funds. Limited funds are available for short term loans through the Dean's Emergency Loan program and EOPS Emergency Loan program. These loans are generally paid back during the semester the funds were released.

Textbook Loans—The Learning Center and the Library both maintain an extensive collection of textbooks for students to borrow on a short-term loan basis (hourly and overnight). These textbooks are especially useful to cash-strapped students who need access to FREE textbooks. Check here to see if your textbooks are in the Library: <http://catalog.plsinfo.org/screens/course.html>. Students are also encouraged to check with the College Bookstore as many titles can be rented for a fraction of the price of a new or used book.

Eligibility

Eligibility depends upon the program of application. For example, the BOGFW program is available to students who have been classified as residents of California by the Admissions and Records Office and meet specific program eligibility, such as receiving TANF, SSI/SSP or General Assistance for method A, annual income standards for method B, other special dependency classifications for method S, or can demonstrate at least one dollar of unmet need for method C by filing a FAFSA. This program serves over 3,600 Cañada students as of the 2007-08 year. The Federal Pell and SEOG Grants require financial need be demonstrated by the Free Application for Federal Student Aid (FAFSA). A student must either be a U.S. citizen or in one of a group of categories known as eligible non-citizen (including permanent resident, resident alien, refugee, or asylee). The ACG also requires FAFSA filing but only U.S. citizens are eligible. The TEACH Grant also requires FAFSA filing but is not need-based. FFELP loans require FAFSA filing; subsidized Stafford loans are need-based and unsubsidized Stafford loans are not need based. All loans are subject to annual and aggregate borrower loan limits. As the criteria to qualify for the various financial aid programs can vary widely, all students who have a financial need

are strongly encouraged to apply. The Financial Aid staff provides guidance on programs for which an eligible student may apply. In a number of cases, students may qualify for more than one program to assist them with their college attendance costs.

Students are recommended to apply for financial aid as early as possible so eligibility can be determined and notification provided before the start of enrollment. While the Cal Grant has a firm deadline and priority is given in awarding limited campus-based funds (Federal SEOG and FWS), the Federal Pell, ACG, TEACH, FFELP Stafford and PLUS Loans and the BOGFW programs can be applied for after a semester has begun and throughout the aid-year. Please review the extensive material available (in English or Spanish) in the Financial Aid Office or on the College website- <http://canadacollege.edu/financialaid> and at www.fafsa.ed.gov.

It is also recognized that there may be unusual circumstances that the financial aid application material does not capture which impacts the ability to attend college. Students may submit an Unusual Circumstance form or Dependency Override Request form to explain those situations to be considered in reviewing financial aid eligibility. Additional documentation is required.

For detailed information regarding specific assistance programs, students should contact the Financial Aid Office, Bldg. 9, Room 109.

Federal Regulation: Return of Title IV Funds

A student who receives Federal Pell Grant and withdraws from all classes prior to completing more than 60% of the semester, will be required to pay back a portion of the grant funds to the federal government. (Federal SEOG, ACG and TEACH grants and federal student loans are also subject to Return of Title IV). Students who owe Return of Title IV funds are ineligible to receive additional federal financial assistance from any college or university until satisfactory repayment arrangements have been made.

Ability to Benefit

Any person applying for Financial Aid who has not earned a high school diploma, or who has not received a satisfactory GED score, or a passing score on the high school proficiency test should be prepared to show evidence of ability to benefit from community college courses. Such evidence may include, but is not limited to, ability to read, write, compute, and converse at an acceptable level as determined by assessment tests administered by the College. This assessment is referred to as an Ability to Benefit test.

Those who apply for financial aid and for admission to Cañada College and who are not high school graduates as defined in the above paragraph, must complete assessment testing and participate in orientation. (Federal Ability to Benefit reference 34CFR600.11)

For GED testing information, interested persons should call the unified school district in their areas. In the local area the GED test is offered through the Sequoia Union High School District Adult School, (650) 306-8866. Students who are still attending high school are not eligible for federal financial aid regardless if they pass the Ability to Benefit test as they must also be regularly admitted college students.

First-Year Experience Program

The First-Year Experience Program is an innovative approach to traditional course offerings, created by linking a course with specific curriculum content and a course to give the student strategies to be successful in college.

Instructors in the linked courses work as a team, coordinating assignments, exams, and other class activities in their specified courses. Students, too, become a team by joining together in a "cohort" or group, to take the linked classes. Students in this environment are better able to connect and apply information and learning from one course to another. Participation in such a program contributes to improved student success, and retention.

Health Services

A variety of services is available: information and consultation on health problems, evaluation of symptoms, over-the-counter medications, personal health counseling, first aid, pregnancy testing, HIV testing and counseling, vision screening, blood pressure screening, health oriented programs, assistance with referrals for medical and dental care and psychological services, and arrangements for emergency care and student insurance.

All Health Services are free and confidential. They are available to both day and evening students on either a drop-in or appointment basis. For further information, the Health Center is located in Bldg. 5, Room 204 or call 306-3309.

Quality health insurance is available to all students enrolled in a minimum of 4 units of credit. All students are covered by District accident insurance. Dental insurance plans at reasonable cost are available to all students.

Learning Center

The Learning Center is designed to provide a positive learning environment that integrates technological resources and learning assistance services to support student learning across the curriculum. The Learning Center provides a wide range of individualized college credit, self-paced courses in study skills, vocabulary, grammar, spelling, and writing, and more. Students complete assignments using textbook, computer, internet, and print material. Assistance is offered by an instructor, aide, or tutor. Learning Center courses are designated with the prefix LCTR. Both non-degree and degree credit courses are available. Degree credit courses articulated with the CSU system are transferable.

The Learning Center programs and self-paced courses incorporate the content and language of college subject areas. Students are assessed and provided program plans focusing on areas of need. Students complete assigned programs using computer, internet, audio, audio-visual, and print material. As they proceed through the programs and self-paced courses with the assistance of instructors, aides, tutors and/or student assistants, their performance is evaluated periodically before they proceed to higher level objectives.

Also incorporated within the Center are the Computer, Tutorial, Math, Writing, and MESA Centers. The TRiO Student Support Services (SSS) program is also located in the Center. The programs are coordinated

with both related classroom offerings and the individualized LCTR programs and self-paced courses.

The Computer Center, which is internet-accessible, is used by students completing individualized LCTR programs and self-paced courses and by students taking a course with supplementary assignments requiring computer use. Information about enrollment is available through the front desk.

The Tutorial Center provides individual and small group tutorial assistance in Cañada courses. Peer tutors, recruited from a wide range of academic and vocational areas, must enroll in LCTR 100 for tutor training unless they have previous experience tutoring in college subject areas. All participating tutees must enroll in LCTR 698 (no fee, no credit) and must remain enrolled in the course in which they receive assistance.

The Writing Center offers students enrolled in reading and writing courses and other courses requiring writing skills, additional instruction and skill reinforcement.

The Math Lab is an area in the Center where students who are currently enrolled in Cañada math courses can receive drop-in assistance.

The MESA Center (Math Engineering Science Achievement) (adjacent to the Math Lab) provides academic excellence workshops, mentoring, field trips and counseling to students who are considering math, science, engineering majors.

The TRiO Student Support Services (SSS) program provides students with academic and career counseling, mentors, and graduate tutors. Program participants receive additional services and support such as workshops and speakers, cultural and social activities, and field trips to four-year colleges and universities.

The Alternate Media Center produces instructional materials (textbooks, course materials, schedules) in alternate formats for students with disabilities.

Contact the Learning Center in Bldg. 9, Room 210 or call 306-3348 for specific hours.

Library

The beautiful, state-of-the-art Library combines friendly service and a collection of 50,000 books, 125 magazines, journals and newspapers, hundreds of movies, e-books, e-periodicals and two dozen databases. At the front desk we issue library cards, check books in and out, and help students find textbooks on reserve. Here you can also check out a laptop for use in the Library. At the reference desk we assist students at every stage of the research process. With over 40 public computers, and building-wide Wi-Fi, the Library is a great place to go online or write a paper. The library is full of inviting places for quiet study with spectacular views of the Woodside hills.

The libraries of Cañada, CSM, and Skyline are members of the Peninsula Library System, a consortium of San Mateo County's 35 public libraries. The combined collections of these libraries total more than a million items and are accessible by means of the on-line public catalog. Items from other PLS libraries can be delivered to the campus or picked up at one the member libraries.

Students may borrow college library materials with their Peninsula Library System (PLS) card, issued by any public or community college library in San Mateo County. Students who live in County and do not have a PLS card, as well as students who do not live in County, may obtain a library card from the Cañada Library Circulation Desk. Proof of enrollment is all that is required. We offer instruction in our Information Literacy Center and through a one-unit course, Library 100, which teaches students how to conduct research.

Middle College High School

The Cañada Middle College High School Program is joint partnership between the Sequoia Union High School District and Cañada College. Middle College High School is designed to reach high potential, underachieving high school students who want a head start on college. Students complete requirements for their high school diploma and earn college units towards an AA degree at the same time. All classes are taught on the Cañada College Campus. Approximately 60 juniors and seniors from the Sequoia Union High School District attendance area are accepted into the program each Fall. Three high school courses are required per semester. Juniors take United States History and English III. Seniors take English IV and one semester each of Economics and American Government. All students take Life Communications, which is a study skills/college success and personal development course. The remaining courses are offered through Cañada College and are taught by Cañada College professors. These courses are selected to fulfill the credits and requirements for high school graduation. Students must satisfy the graduation requirements of the Sequoia Union High School District and will earn a diploma from their home high school. Students must be enrolled in at least three Cañada College courses, totaling a minimum of seven units. These courses give high school credit and college units simultaneously. If the course is designated transferable, the units may apply towards a four-year college or university degree. The Middle College program pays for tuition and textbooks which could save families thousands of dollars. Students receive guidance in every aspect of high school and college life; they find they are better prepared for the college atmosphere and life after high school. Through this unique program, students have the opportunity to explore new challenges that they cannot attain in a traditional high school.

The officers inform students about campus issues, administer student association monies, and represent student interests on Cañada's governing committees. Student government provides a unique educational opportunity to learn by doing in the world of college governance. Participation is demanding and time consuming, but students have testified that their involvement was the most valuable learning experience they had at college, both educationally and socially.

The student government operates under the provisions of the State Education Code and the regulations of the Board of Trustees and Cañada College. It serves as a vehicle through which students can recommend and help effect changes at their college. Any student who is interested in becoming a senator or participating in student government should contact the Student Activities Office, Building 5, Room 211.

The University Center currently offers

In partnership with San Francisco State University:

- Child and Adolescent Development - Bachelor of Arts

- Nursing - Bachelor of Science
- Executive Master of Business Administration

Veterans receiving educational benefits will be subject to the following academic standards for continuing eligibility:

ADA-Decreto para Americanos con Discapacidades

El 26 de Enero de 1992 el Decreto para Americanos con Discapacidades (ADA), que gobierna el acceso y utilidad de las facilidades públicas y facilidades comerciales, se hizo efectivo. Este decreto afectará el empleo, servicios públicos, transportación y los servicios de comunicaciones telefónicas. Este estatuto literalmente abre las puertas a los individuos con discapacidades que han necesitado acceso a muchos efectos y servicios que el público trata normalmente con indiferencia como baños, agua para beber, lavanderías, cajeros automáticos (ATM), y así sucesivamente.

La ADA está diseñada para prohibir la discriminación en contra de esos individuos con una discapacidad física o mental que limita una mayor actividad en la vida cotidiana. Características físicas como ser zurdo, tener un propio estilo de vida, uso de drogas, etc., estos temas no son cubiertos por el decreto (ADA). Muchas estructuras existentes requerirán alteraciones de diseño mayores y/o menores. Las normas de diseño accesible están delineadas en las "Normas de Accesibilidad del ADA para Edificios y Facilidades". Estas normas son muy similares a esas establecidas por el Instituto Nacional Americano de Normas (ANSI):

1. Proveer acceso general a las facilidades.
2. Proveer acceso específico a esas áreas dentro de una facilidad donde efectos y servicios son disponibles.
3. Proveer acceso a los baños.
4. Implementar algunas otras medidas necesarias para proveer acceso y funcionamiento.

Esto incluye todas las construcciones nuevas y existentes de las facilidades públicas y facilidades comerciales. Los arrendadores y los arrendatarios serán responsables de obrar de acuerdo a la ley. Las facilidades públicas incluyen: facilidades de hospedaje, restaurantes, facilidades de entretenimiento, tiendas, establecimientos de servicio, transportación pública, museos, facilidades recreativas, facilidades educativas, centros de servicio social, facilidades deportivas y de ejercicio. Clubes privados y facilidades religiosas no están cubiertas por el decreto (ADA). Facilidades comerciales no son de uso residencial por una entidad privada cuyas operaciones afecten el comercio. Esto incluye todas las facilidades comerciales que ocupen una casa o apartamento.

Es requerido que cada facilidad conduzca un programa de evaluación propia relacionado a los mandatos del ADA. A personas con discapacidades y/o organizaciones que las representan se les debe proporcionar la oportunidad de participar en la evaluación para el desarrollo del plan transitivo. Este programa debería ser completado y archivado, a más tardar el 26 Enero de 1995. Pueden ocurrir condiciones especiales como una "desproporcionada alteración de costos" y puede ser revaluado por la oficina del Procurador General de Estados Unidos.

Infracciones al ADA pueden ser llevadas ante un juez por personas particulares o por el Procurador General de Estados Unidos. El juez puede otorgar a una persona particular daños monetarios, incluyendo

gastos de abogado, como también fijar una pena civil en contra de la entidad ofensiva, de \$50,000 a \$100,000.

En conclusión, los requerimientos de la ADA serán vistos como una norma para diseño y construcción. Les da responsabilidad sobre esos (AEC) involucrados en el diseño, construcción y operaciones de estructuras comerciales y públicas. La ADA está abriendo muchas oportunidades en los campos del AEC para diseñadores, constructores y consultores. Enmienda Adicional

Adicional y concurrentemente al archivar de una queja por escrito, el estudiante tiene el derecho de presentar una demanda o cargos con otras agencias gubernamentales como: la Comisión de Oportunidad de Igualdad (Equal Opportunity Commission), la Oficina de Derechos Civiles (Office of Civil Rights), el Departamento Equitativo de Viviendas y Empleo (Department of Fair Employment and Housing), la Oficina del Canciller de Colegios Comunitarios de California (Chancellor's Office of the California Community Colleges), o la Corte Estatal o Federal.

Política de No Fumar

Para poder proveer un ambiente de aprendizaje y trabajo sano para los estudiantes y empleados, el fumar está prohibido en todas las espacios interiores y hasta una distancia de quince (15) pies (5 metros) de cualquier puerta, entrada a una area interior, o entradas de ventilación. La violación de esta política podrá conducir a medidas disciplinarias conforme a los procedimientos disciplinarios usuales.

Política Para un Colegio Libre de Drogas

El Distrito de Colegios Comunitarios del Condado de San Mateo y Cañada College, en cumplimiento con las Escuelas Libres de Drogas y las Enmiendas de las Actas Comunitarias de 1989, prohíben el uso, posesión, venta o distribución de alcohol, narcóticos, drogas dañinas o ilegales, u otras substancias reguladas definidas en los estatutos

de California, en las propiedades del Distrito o colegio, o en cualquier evento auspiciado por el Distrito o colegio.

Los estudiantes deben conducirse como ciudadanos responsables y de una manera compatible con la función del colegio comunitario como una institución educativa. Los estudiantes están sujetos a la autoridad civil y a todas las reglas y regulaciones del Distrito y del colegio.

Los estudiantes que sean encontrados violando las reglas de la política de colegio libre de drogas al manufacturar, distribuir, repartir, poseer, o usar sustancias reguladas definidas en los estatutos de California, en cualquier propiedad del Distrito Escolar serán sujetos a medidas disciplinarias que pueden incluir la posible cancelación de la inscripción del estudiante al colegio.

Personas solicitando más información correspondiente a esta política o a los riesgos de salud y efectos asociados con el alcohol y los narcóticos u otras drogas tóxicas e ilegales, deben ponerse en contacto con Lesli Sachs, enfermera del colegio, Edificio 5, Oficina 204, o al teléfono 650-306-3309.

La información completa acerca de las políticas puede ser encontrada en las página 28 de este catálogo.

Associate in Arts Degree and Associate in Science Degree

The awarding of an Associate Degree is intended to represent more than an accumulation of units. It is to symbolize a successful attempt on the part of the College to lead students through patterns of learning experiences designed to develop individual capabilities and insights.

Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in some field of knowledge to contribute to lifetime interest.

Central to an Associate Degree, General Education is designed to introduce students to the variety of means through which people comprehend the modern world. It reflects the conviction of colleges that those who receive their degrees must possess in common certain basic principles, concepts and methodologies both unique to and shared by the various disciplines. College educated persons must be able to use this knowledge when evaluating and appreciating the physical environment, the culture and the society in which they live. Most importantly, General Education should lead to better self-understanding.

Graduation from Cañada College with the Associate in Arts or Associate in Science degree is based upon the completion of 60 units of lower division college work, including requirements A through G listed below. Substitutions and waivers for degree requirements may be authorized by petition to the appropriate Division Dean. An application for the degree must be filed in the Admissions and Records Office during the last semester of attendance (refer to calendar for the college year for deadline).

Graduation Requirements Student Catalog Rights

Graduation requirements are listed in the Catalog. A student remaining in continuous attendance at Cañada College, College of San Mateo, or Skyline College may, for the purposes of graduation, elect to meet the requirements in effect at the college from which the student will graduate, either at the time the student began such attendance or any subsequent year of continuous enrollment.

For the purpose of this policy, "continuous enrollment" means attendance through at least the fourth week of instruction in either the fall or spring semester in each calendar year. Absence to attend another accredited college or university shall not be considered an interruption in attendance if the absence does not exceed one year. Catalog rights cannot supersede any State or Federal regulation or requirement in effect at the time of graduation.

A. Resident Requirement.

A minimum of 12 units must be completed in residence at Cañada College.

B. Scholarship Requirement.

A 2.0 grade point average is required for all degree applicable coursework taken within the San Mateo County Community College District, and all incoming degree applicable coursework taken outside the District.

C. Major Requirement.

All core classes applied to the major must receive a grade of C or better. Some majors require a minimum C (or Credit) grade in each course. Fifty percent of the units required for the major must be completed at Cañada College.

Competency requirements exist for the areas of Reading, Writing, Mathematics and Computer Literacy. Students must demonstrate competency according to the following in each of the areas in order to be eligible for the A.A. or A.S. degree. The Cañada College computer literacy requirement provides these foundation computer skills.

E. General Education Requirements

General Education is the part of an educational program which introduces students to areas of study that develop breadth of outlook

and contribute to balanced development. This general education is complementary to, but different in emphasis from, the specialized education received for a job, a profession, or from focusing on a particular field of study. The purpose of the program in General Education is to assist students in moving toward the following goals:

- Developing critical and constructive thinking for problem solving and value discrimination.
- Understanding their relationship to their biological, physical, and cultural environment.
- Understanding the creative activity of others and participating to some extent in creative activity.
- Using basic mechanical, mathematical, and communication skills to solve everyday problems, understand ideas of others, and express ideas effectively.
- Developing a code for personal and civic life as a responsible citizen in a democracy.
- Maintaining good mental and physical health and social adjustment.

Specific General Education Unit Requirements (See AA/AS Degree General Education Pattern on page 49.)

- Associate in Arts Degree—21 units minimum
- Associate in Science Degree—18 units minimum

F. Ethnic Studies

Educated people celebrate and value cultural diversity. The ethnic studies/cultural diversity graduation requirement of one 3-unit course at Cañada College demonstrates the commitment to include in the education of students the knowledge of the ever-changing diversity of our country. With the fulfillment of this requirement, students have the opportunity to see themselves and others in the mutually supportive relationship basic to the survival and prosperity of all of us. Refer to Ethnic Studies in the Course Descriptions section of this Catalog for a list of specific courses.

G. Physical Education

One or more activity courses in physical education for a minimum of 2 units is required for an AA/AS degree. This requirement will be waived or modified for students in the following categories:

- graduates of community colleges or other accredited colleges and universities
- Evening/Saturday/Off-campus Center students: Students who have completed a minimum of 60% of the coursework units submitted to fulfill the Associate degree requirements in the evenings, Saturdays, or at a Cañada College Off-campus center
- veterans with one or more years of service
- persons excused for medical reasons

Waivers other than for the reasons stated above should be sought following regular college procedures via the Academic Standards Committee.

AA/AS Degree and Certificate Applications

The Office of Admissions and Records processes all petitions and determines eligibility for the Associate in Arts and Associate in Science Degrees and Certificates offered at Cañada College. Eligible graduat-

ing candidates must file an application for the appropriate degree or certificate according to deadlines published in the Schedule of Classes and arrange for all transcripts from other colleges to be placed on file with the Office of Admissions and Records prior to the specified deadline (see Calendar of Important Dates on page 5).

Second Associate Degree

To qualify for an additional associate degree at Cañada College, a student must (1) complete a minimum of 12 units for the degree at Cañada College after the awarding of the previous degree and (2) comply with the appropriate general education requirements for the second degree. In addition, 50 percent of the major course units must have been completed at Cañada College.

Certificate Programs

Certificate programs are designed for students looking for short-term programs of instruction with a high degree of specialization. They are designed to prepare individuals to enter a particular field of employment or provide a level of in-service training or education for those already employed. Cañada College awards two levels of certificates. Certificates of Achievement are those that are 12 or more units of course work that have been approved by the State of California and will be posted to the student's transcript. Skills/Career Certificates are those that are up to 11.5 units of course work and will be awarded to the student by the department offering the certificate. Skills/Career Certificates will not be posted to the transcript. The section—Associate Degrees, Certificates, Transfer in this Catalog, lists programs alphabetically by subject and identifies the certificate and associate degree programs available.

The Certificates of Achievement have been designed on the career ladder concept. Some of the course work applied to the certificates can also be applied to associate degrees. If no associate degree major exists in the area, some of the units can be counted as electives toward any associate degree. If an associate degree with the specific major exists, the units may make up an Associate Degree major.

Certificate of Achievement General Requirements

1. The prescribed courses and units must be completed as identified in the Cañada College Catalog under core and selective courses.
2. Fifty percent of the required courses (identified as core and selectives) must be completed at Cañada College. Equivalent lower division courses completed at other institutions holding district approved accreditation may be submitted on a Request for Substitution petition for consideration to satisfy some certificate requirements. Petitions for this purpose are available in the Admissions and Records Office, Building 9, first floor.
3. All CORE classes applied to the certificate must receive a grade of C or better. If the course is evaluated by pass or no pass ONLY then a "credit" evaluation for the course is acceptable. If the course is offered as "grade option" a letter grade of C or better is required. A 2.0 grade point average is required for all degree applicable coursework taken within the San Mateo County Community College District and all incoming degree applicable coursework taken outside the District.

4. Overall grade point average of at least 2.0 in all certificate courses (required core + selectives).
5. Computer Literacy Requirement: Satisfactory completion of a minimum of 1.0 unit of one of the following: ACTG 190, 192, 194, 196; any computer related MART course; BUS.103; any computer related CBOT course above 417; any computer related CIT course; any CIS course; any COMP course; FASH 180, INTD 362, 363; LEGL 276, or MEDA 115, or MEDA 150, OR a passing score on the Cañada College computer literacy test (both written and hands-on).
6. Students must be in "good academic standing" to receive a Certificate of Achievement.

Precollegiate Basic Skills Courses

With the exception of English as a Second Language and learning disabled students, no student may receive more than 30 semester units of credit for precollegiate basic skills courses. Students who show significant, measurable progress toward the development of skills appropriate to enrollment in college-level courses may apply to the Dean of Counseling and Enrollment Services to request a limited waiver of this requirement.

Degree Credit & Non-Degree Credit Courses

The State of California has legislated a series of reforms designed to strengthen the community colleges. One of these reforms mandated a comprehensive review of the standards of instruction in each course in the curriculum. Each course was classified as "degree credit" or "non-degree credit". A course offered for "non-degree credit" cannot be counted toward certificate completion, graduation or transfer. The following notation is placed at the end of the course description for all non-degree credit courses: "Units do not apply toward the AA/AS degree."

Advanced Placement Test Policy

Cañada College grants credit for all College Board Advanced Placement Tests on which a student scores 3 or higher. The following list of College Board Advanced Placement Tests indicates how credit is applied to the Cañada College Associate degree general education requirements. Other AP tests not listed below generate elective credit toward the Associate degree. Advanced Placement Tests (AP) - Cañada College views, as do many colleges and universities, the Advanced Placement Test as a transcript from an independent college. Cañada College applies AP credit toward the Associate degree general education requirements in the same manner as the California State University system applies AP credit to CSU General Education/Breadth requirements. The chart above outlines general education application for Advanced Placement credit. How AP credit is applied to university majors and degree requirements is determined by evaluators at each college or university. Students should be aware that college courses taken after the AP test may duplicate the content of the AP test and, in these cases, the university (transfer destination) may not award credit for both the course and the AP test. Space does not permit discussion of how AP credit is granted for every university and program so students are advised to thoroughly investigate this area.

+IGETC - Advanced Placement tests can be used to satisfy all areas of IGETC except for Area 1B and 1C. This work may be applied toward completion of IGETC but applicability of such course work toward a major or degree requirements rests with each CSU and UC campus.

**CSU - A student may earn up to 6 semester units of baccalaureate credit for each Advanced Placement test of the college Entrance Examination Board on which the student receives a score of 3, 4, or 5. The list above indicates how AP credit is applied to CSU GE/Breadth requirements.

*UC - the University of California system grants credit for all College Board Advanced Placement Tests on which a student scores a 3 or higher. The credit may be subject, graduation credit, or credit toward general education or breadth requirements as determined by evaluators at each campus.

CSU General Education Requirements Worksheet

Students transferring to the California State University (CSU) system qualify for admission as upper division transfers if they complete at least 60 transferable units with a GPA of 2.0 or better (non-residents 2.4 or better). The 60 unit requirement must include successful completion (with a grade of "C" or better) of areas A1, A2, A3, and B4, and 18 additional units from areas B, C, D, and E. Students who complete the 39 unit pattern satisfy the lower division general education requirements for the California State University BA/BS degree. A minimum of 9 semester units of upper division general education coursework must be completed at the university after transfer. Courses listed in more than one area can be used to satisfy only one area.

At the completion of course work at Cañada College—and prior to transfer—students must request a CSU GENERAL EDUCATION CERTIFICATION from the Admissions and Records Office to be mailed with the final transcript to the transfer destination. Complete a transcript request form to make this request. Use PROJECT ASSIST (www.assist.org) for the most up-to-date transfer information which includes general education and lower division major requirements and articulation.

At the completion of course work at Cañada College—and prior to transfer—students must request, an IGETC CERTIFICATION from the Admissions & Records Office to be mailed with the FINAL transcript to the transfer destination. University of California—Transfer Courses 2008–2009

The following is a list of courses designated as transferable toward baccalaureate degree credit at all campuses of the University of California system. Always check with the Counseling Center for the most up-to-date information. Use PROJECT ASSIST (www.assist.org) to access UC and CSU transferable course lists, I.G.E.T.C. lists, CSU General Education Requirements lists, course-to-course equivalency information, and major course requirement information. The PROJECT ASSIST database is recognized by the California Community Colleges, the California State University system, and the University of California system as the official database of articulation information. It is the most accurate and current source of information and is updated throughout the year as curriculum changes and colleges and universities make new articulation agreements.

UC will not give credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice, or Library Departments due to credit restrictions in those areas.

ACCOUNTING

Certificate of Achievement-Entry Level Bookkeeper

Certificate of Achievement-Accounting

Associate in Science Degree

Transfer Program

The Business Department offers a transfer curriculum to a four-year university, an AS Degree, and a certificate program designed to give the students both formal and practical training in accounting. The accounting AS degree and certificate programs are designed to give students enough practical experience so that they can secure a position in either the public, governmental, or private accounting sector when they have completed the recommended 25.5 - 29.5 units. Courses specifically required for the student's major must be evaluated by a letter grade, not by the credit (CR) grade.

The Certificate of Achievement is designed for those individuals that are interested in job opportunities at the entry level in bookkeeping and or computerized accounting data entry. Those students that are interested in becoming professional bookkeepers may apply some of the course work in this certificate to the Certificate of Achievement in Accounting and the accounting A.S. degree.

The demand for entry level bookkeepers and accounting data entry personnel continues to remain high. Entry level positions pay between \$15 and \$25 per hour depending upon experience.

PROFESSIONAL SCHOOL PREPARATION

(Pre-Dentistry, Pre-Medicine, Pre-Pharmacy, Pre-Veterinary, Pre-Optometry)

Many students are interested in careers in the health sciences and wonder what they should major in at Cañada College. Students often have the misconception that “pre-med” is an academic major and it is not. Students should major in what they enjoy as long as they take the appropriate courses required for professional school (medical, dental, veterinary) admission. Some students choose majors like biological science, genetics, or microbiology, where there is a great deal of overlap between courses required for their major and the professional school undergraduate requirements. Others choose majors not directly related to their career objective, such as English, psychology, anthropology, and use their elective units to meet the professional school requirements. Professional schools, especially medical schools, are looking for well-rounded students who have taken courses in the humanities and social sciences, and who have participated in activities and community work. More information can be found at numerous websites (i.e., www.aamc.org) and by speaking with a Counselor/Advisor.

Each professional school has a minimum number of prerequisite courses to be taken at the undergraduate level. Requirements vary from school to school. Many prerequisite courses may be taken at Cañada College.

Certificate of Achievement - Early Childhood Education/Child Development

Associate in Science - Early Childhood Education /Child Development Transfer Program

The Early Childhood Education/Child Development program is designed to meet the needs of individuals planning a career working with young children and/or are currently working with young children. The child from birth to school age is the primary focus. Current research and practical applications are combined in order to assist students in planning their most effective role with children. Children's growth, developmentally appropriate practice, cultural diversity, observational skills, family support and professional development within the ECE field are major components of the program. In order to meet the varied needs of ECE students, courses are offered mornings, afternoons, evenings and weekends. The program makes every effort to schedule classes to meet the diversity of students' needs and to encourage students to plan ahead in order to complete specific program requirements.

Graduates of the ECE/CD program with the ECE/CD certificate are prepared for positions in the Early Care and Education field as teachers, family child care providers and para professionals in elementary school settings. Graduates with an AS degree with a major in ECE/CD are prepared for positions as head teachers, master teachers, site supervisors and program directors.

Any student in the ECE/CD Program may complete the certificate program in one year if a minimum of 12 units is taken each semester. Students coming from other colleges and universities may have equivalencies established if "child" is in the title of the course and no "Elementary Education" designation exists. All courses that apply toward the certificate program must be lower division work. A minimum of 12 units must be taken at Cañada College to receive the Cañada College ECE certificate.

TRANSFER PROGRAM - CHILD DEVELOPMENT

Cañada College offers lower division coursework required for transfer in areas related to Child Development and for students seeking teaching positions in a preschool, elementary, or secondary educational environment. In this regard, it is suggested that students research Child Development, Psychology, and Liberal Studies majors. Students should use PROJECT ASSIST (www.assist.org) to research lower division major requirements at the transfer destination(s) of their choice. Also, work with a Counselor/Advisor to determine appropriate transfer coursework.

CHILD DEVELOPMENT PERMIT

Cañada College's ECE/CD Certificate Program is aligned with the Child Development Permit regulations. The Permit has been approved by the California Department of Education and the Commission on Teacher Credentialing for child care and development centers operating under Title 5 (publicly subsidized).

The Child Development Permit emphasizes professional development and will eventually impact the entire Early Childhood Education field. The career lattice approach acknowledges the importance of many entry points into the profession. The Child Development Permit has taken the place of the Emergency Children's Center Instructional Permit, the Children's Center Supervision Permit, and the Life Children's Center Supervision Permit.

AREAS OF SPECIALIZATION WITHIN THE ECE/CD PROGRAM APPLICABLE TO THE CHILD DEVELOPMENT PERMIT

In accordance with the guidelines established by the Child Development Permit for the Master Teacher, Cañada College's ECE/CD Program has created several "specializations." ("Administration" is not considered a specialization.) Six semester units in specific areas define a specialization. These focus areas can be useful to

students when seeking work advancement or career development options.

Course Descriptions

General Information

BASIC SKILLS ADVISORY SYSTEM

A Basic Skill Advisory refers to the recommended skill level in reading, writing, and/or mathematics which is needed before enrolling in a course. In order to succeed in most courses, students need to demonstrate at specific levels reading and writing skills and, for some courses, perform mathematical operations before enrolling. Designating these basic skill levels informs students at which minimum levels they need to perform before enrolling in the target courses.

Basic skill levels are recommended rather than mandatory, but students are strongly encouraged to adhere to them and follow the advice of their counselor. Counselors use placement test results and other information to determine whether a student needs to raise his/her skill levels before enrolling in a target course.

Open Curriculum

Some courses are designated as OPEN CURRICULUM (OC) courses. This designation means that specific levels of reading, writing and/or math are not required for successful course completion. Most OC designated courses are activity courses which do not require students to use reading, writing, and/or math skills. Some OC designated courses are entry level reading, writing, and/or math courses. Specific levels of proficiency for enrollment in these courses are not designated because students may begin at their current instructional levels and proceed to higher levels of performance until they reach exit levels for course completion. Some of these courses, however, such as READ 826, ENGL 826, and MATH 811 may require that placement test results and other information be on file prior to the first day of class.

Recommended Basic Skill Level Summary:

Level 1 Students must be eligible for READ 836, and ENGL 836 or ESL 400

Level 2 Students must be eligible for READ 420 and ENGL 100

Level 3 Students must be eligible for ENGL 110

Math 2/3 Students must be eligible for MATH 110 or 111

Math 4 Students must be eligible for MATH 120 or MATH 122

*If ENGL 100 is a COURSE PREREQUISITE for a particular course, students must take the course. An appropriate English Placement Test score does not apply in this case.

Math 2/3 (M2) (M3)

If a course is designated as MATH 2 or M2, students must be eligible for MATH 111. This means that students need to demonstrate the ability to perform basic arithmetic operations successfully. MATH 111 and 112 cover elementary algebra offered in two semesters.

In order to demonstrate proficiency at the M2 level, students may attain an appropriate Placement Test score in math or they may complete successfully MATH 811 (Pre-algebra).

If a course is designated as MATH 3 or M3, students must be eligible for MATH 110 which covers elementary algebra in one semester. This means that students need to demonstrate the ability to perform basic arithmetic operations successfully.

In order to demonstrate proficiency at the M3 level, students may attain an appropriate Placement Test score in math or they may complete successfully MATH 811 (Pre-algebra).

Math 4 (M4)

If a course is designated as MATH 4 or M4, students must be eligible for MATH 121 or 122. This means that students need to demonstrate ability to perform basic algebraic operations successfully.

CALIFORNIA ARTICULATION NUMBER (CAN)

The California Articulation Number (CAN) identifies some of the transferable lower division, introductory courses commonly taught within each academic discipline on college campuses. The system assures students that CAN courses on one participating campus will be accepted in lieu of the comparable CAN course on another participating campus. Counselors will provide interested students with a list of participating institutions.

The CAN system is new and growing and designed to facilitate student transfer between and among public institutions of higher education in the State of California. CAN numbers are listed parenthetically after the course descriptions in the listing of courses.

Parking

Parking anywhere on campus is by permit only, in clearly designated areas. The Cañada College campus consists of all parking lots and access roads between Farm Hill Blvd. and Cañada Road. Parking is free in student lots on Saturday and Sunday.

Student parking permits are available for \$40 per semester and \$20 for the Summer Session and may be purchased during registration or from the Business Office, Building 9, Room 119 during the day, or from Admissions & Records during the evening.

Students attending class only one day or evening per week may purchase a daily permit each time they come on campus. These permits are available from vending machines for \$2.00 and allow parking in student lots only. Daily permits are to be placed on the left hand side of the dashboard clearly visible to the security officer.

Visitor Parking Lot 4 is limited to one-hour parking only, except in spaces designated for disabled persons. No staff or student parking is allowed in visitor Lot 4.

Special parking permits for disabled students, day and evening, are issued by the Business Office, Building 9, Room 119. For further information, call the Enable Center at 306-3490 or the Business Office at 306-3270.

Parking fees are refundable through the second week of instruction in semester-length classes, or the first 10% of the instructional period in less than semester-length classes. During late registration, a grace period will be in effect in student parking lots only, in order to enable students to purchase a permit during the late registration period. Parking regulations are enforced at all times in staff lots and in other restricted areas.

Parking spaces are available on a first-come, first-served basis. Therefore, a permit is not a guarantee of a parking space. Cañada College and the San Mateo County Community College District do not accept liability for vandalism, theft or accidents. Use of parking facilities is at the user's risk. Student parking permits are valid at all three campuses of the SMCCCD.
