FACULTY PARKING PERMITS & CLASSROOM KEYS

Cañada College considers policies regarding the safety, security, and access of all people in attendance or affiliated with Cañada College, especially while present at the college, immensely important to sustaining a safe and secure learning environment.

In accordance with the ongoing assessment of safety and security measures, and to promote an education climate that is mindful of stakeholder safety, Cañada College has initiated a new policy that will require all college faculty to possess general classroom keys for specific classrooms used for instruction

Cañada faculty will be issued a general classroom key that allows faculty to open and lock the classrooms occupied for instruction. The policy to provide each faculty member with a general classroom key manifested from the resolution by administration that faculty needs the ability to lock their classrooms in an emergency situation.

In order to remain consistent with Cañada College policy and procedure, the University Center at Cañada College will issue general classroom keys and/or ACAM (electronic keys) to faculty from our university partners participating in a joint use agreement: Notre Dame de Namur University, National University, San Francisco State University.

In addition, Cañada College will now provide partner faculty with a single year parking permit that will be issued at the outset of the semester. The parking permit will need to be returned at the end of semester or at the end of the year.

INFORMATION TECHNOLOGY SERVICES

Information Technology Services (ITS) is the San Mateo County Community College District's central resource for technology-based services for SMCCCD Faculty, Staff, and Administrators. ITS provides computer, network, telephone and Internet services to the entire District (Including College of San Mateo, Skyline College and Cañada College campuses). ITS connects people to people, to their work and studies, and to the information, and technical resources they need to achieve their goals. Service is our central focus and concern. The ITS Helpcenter is staffed during normal business hours and they can respond to questions and fix most problems our faculty and staff encounter.

The most effective way for faculty to report computer issues is by submitting a support request online at the District Portal website:

<http://www.smccd.edu/portal>

Click on the IT Services Request form.

Phone: Extension 6543 on campus or (650) 574-6543
from off campus.

Office Hours

8:00 a.m. to 4:30 p.m. Monday through Friday

By arrangement after hours.

QUICK TIPS FOR “SMARTCLASS” EQUIPMENT

Use the small control panel on top of the teacher’s desk to turn the projector on by pressing the “POWER” button and then let the projector warm up.

If using a laptop computer, connect the VGA (15 pin) cable to your computer. Mac users might need an adapter. There is wireless internet access through most of the campus. Press the “source” button on control panel; this will find any active input connected to the projector. If no image is projected (you have a blue screen with the words “no signal”) you may need to hold down the Fn key on your laptop simultaneously with one of the function keys, usually F9, to send the image out to the projector.

If you are using a PC with Windows 7, you would hold down the “Windows” key and press “P” to bring up the display control panel.

Mac users would go to their “System Preferences” folder, then “Displays”, press “detect displays” and check the box “mirror displays” under the arrangement tab.

If you want to play a DVD, turn on the Blu-Ray player and press the “source” button on the control panel so that it switches to the HDMI input. Use the DVD (Blu-Ray) player as you normally would.

If you want to use the Document Camera, hit the power button on the top of the doc-cam and let it warm up. Press the “source” button on the control panel so that it switches to the comp 2 input. You should see something resembling a computer desktop displayed. Press the “live/win” button on top of the doc-cam to project the live input from the doc-cam.

If your presentation uses sound, you can adjust from the control panel. Also be sure that the sound is up on your computer.

If you want to just play audio from your laptop or iPod without turning on the projector, use the audio cable marked with yellow tape.

If you have questions or problems please call

RESOURCE LAB

A major trend in the field of higher education is the increased participation of distance education programs and self-directed learning. In the last several years, there has been a 25 percent increase in distance education enrollment in the United States and the total number of students enrolled in distance education has surpassed 8 million (Distance Education and Training Council, 2013). The rise in the number of students enrolled in distance education has resulted in need for institutions of higher education, especially community colleges, to identify ways to support the self-directed learners enrolled in a distance education programs. Therefore, to address the lack of academic and support services for non-traditional students and students in evening, online, and hybrid course the University Center at Cañada College is proud to introduce the Resource Lab.

The Resource Lab is located on the second floor of building 5 in room 207 (5-207). The Resource Lab is furnished with the following:

- Comfortable Seating
- Apple Desktop
- CPU Desktop
- Printer
- Headsets
- Webcams
- WiFi

The purpose of Resource Lab is to provide University Center students equitable services that they would receive at their home institution. Thus, the Resource Lab will host library workshops, career services workshops, writing seminars, and study skills workshops. Students will also have the opportunity to reserve the Resource Lab for group tutoring sessions.

EMBEDDED PEER INSTRUCTION COHORT (EPIC)

Embedded Peer Instruction Cohort (EPIC) is a modified Supplemental Instruction (SI) program offered at Cañada College and the University Center. SI is a student support service program designed to offer students peer-guided activities to improve course learning, increase student academic performance, and degree attainment. The International Center for Supplemental Instruction has three goals to SI: 1) Improve students learning; 2) Reduce attrition rates in historically difficult courses; 3) Increase graduation rates (University of Missouri, 2007). Supplement Instruction will be modified from its original framework to meet the needs of ALP and will emphasize peer leadership, transformative learning, learning theory, and educational philosophy.

The University Center at Cañada College will begin offering modified SI through EPIC in collaboration with the Learning Center and STEM in fall 2014. EPIC will be available to all University Center partnerships upon request. Please contact Dr. Jeff Rhoades at 650-306-3177 or rhoadesj@smccd.edu to schedule embedded peer instruction for your class.
