Career Education Advisory Boards

Advisory Board Meetings

The Business, Design and Workforce Division of Cañada College has multiple advisory boards unique to specific career education programs. Our Advisory Boards meet yearly to discuss current programming, and to identify opportunities to further enhance students' experience to meet the changing needs of the labor market. The college strategically invites industry professionals and representatives to serve as active advisory board members in ensuring program coursework is current, reflective of employment demands, and of high quality to meet industry standards.

If you are interested in joining one of our advisory boards, please contact the Business, Design, and Workforce Division Office.
