Paul Wonner & Theophilus Brown: "Painting is its Own Language" 🎨✍️
 Posted on: Apr 9, 2025, 3:29 PM

Cañada College is proud to present 18 works spanning over ...

Cañada College | Art, Design & Performance Interest Area

The function of art is to do more than tell it like it is – it's to imagine what is possible.
 - Bell Hooks in Outlaw Culture: Resisting Representations, 2012

About this Canvas Shell

This canvas shell is a digital tool to learn what it means to be a creative major here at Cañada College as well as an opportunity to explore strategies to support your decision making process! Your experience is unique to you and that matters, what is also important is that you have a direction you are heading in.

About this Interest Area

Cañada College | Science & Health Interest Area

Welcome Amazing Students!

Welcome students to the Science and Health learning community. We are so excited that you have selected Science and Health as your area of study. The Science and Health support team is looking forward to connecting with all of you to be of support in any way that we can. In this course you will find a wealth of information and resources that will help you succeed in your studies and beyond. We are here for you and we want you to reach out to us if you have any questions.

About this Interest Area

Do you like to solve problems, tackle environmental issues, design machines and systems, or improve health and people's lives in your community? Studying the sciences and human biology can help us produce medicines, deliver healthcare, improve the environment, and develop innovative technologies that improve our lives. Degrees in these fields lead to careers as engineers, scientists, radiologic technologists, fitness trainers, dieticians, environmental educators, and medical assistants, among many other options.
