

Academic Freedom Flex Survey Feedback

Here is a snapshot of the data:

Got a 27% response rate from participants - 12 responses out of approximately 15 in person and 30 online (45 total)

Participants were evenly split on how well they think our college handles free speech issues

Participants were more unaware and leaned less happy with how academic freedom is handled

Participants generally learned something from the session

Over 80% of participants would like to see more training on this topic

Future training can involve more scenarios and practicing them, more around maintaining academic freedom, and more training for students

Here are the detailed results of the survey results so far:
