

9.2.21 canDEAC meeting Notes

Spring 22' preparation

What directive has David received? David shared strategic enrollment management priorities as they relate to online ed, and overall focus on hyflex and more agile methods of delivering instruction and resources

<https://canadacollege.edu/prie/enrollmentmanagement.php>

QOTL Update (Allison)

- Ran QOTL 2 this summer, 13 total from SKY and CAN, went well overall. People like cross-campus approach
- Were certain areas more in-demand than others? Mixed bag overall
- SKY/CSM will run QOTL 1 this fall
- Answered danielle's questions about PD, how fac are compensated (response mentioned our budget to support 25 faculty for QOTL 1 & 2 for fall, spring and summer)

Funding Challenges

- Nick - have we considered grants? Use it to help us solve some staffing issues. 2025 will hit us hard in terms of enrollment, big drop in college-age stu's in our area.
- Allison - CAN has never prioritized our online programs even though we've been heavily online for years. Need to get college to prioritize all aspects of support and strategic planning
- Julian - students want to take online courses, need to respond to that demand

Consultant

- Develop repository that will be located in new consolidated online teaching web site and will link to Canvas resources, develop flex trainings based on requested needs, develop 1:1 assistance to support faculty, particularly QOTL completers looking for supplemental resources or follow-up support

POCR Process

- John shared slides on the summary, timeline to move this forward
- We're listed on the consortium, but we're not in the exchange. CSM is. John wanted one of his COMM classes in the exchange, but got confusing response (go ahead from Nick, wait for process message from admin)
- Danielle, do fac go to their Dean to get a course listed in the exchange
- Nick - why do we need a gatekeeper? POCR is different, this is about just getting courses in, not about other curriculum management

Action Items

- DE needs assessment survey - to capture changes, for pgm review. Meeting coming up with PRIE to get this going
- Acad senate statement - clarify Nick's information relating to statement needed for CVC

- Jose's question about who signs off on listing the courses on the exchange (division assistants, deans?) . We went to AS to get their buy in, we're now in the CVC, need to keep up momentum and let our instructors move ahead.
- Check with CSM/SKY on CVC process, particularly any specific approach they're going with to add courses to the exchange
- Add DE program review to next agenda
