Free Drive-Up Wi-Fi is Now Available for
# *SMCCCD Students*

On Monday, September 14, the San Mateo County Community College District launched free Wi-Fi access for students at all three campuses. The new "Drive-Up Wi-Fi" service allows students to park in a specially designated parking lot on the campus of their choice, where they can access Wi-Fi to attend their online classes or do their schoolwork.

Reservations are required for entry. Students can select the campus that is most convenient. Each student will need to complete the Eventbrite reservation form, print or download their Eventbrite ticket, and follow the instructions for entry to the campus. Designated restrooms are available. Students have in and out privileges for the Drive-Up Wi-Fi lot between 6am – 8pm.
