

Priority Registration for Spring 2021

As a reminder, to continue to receive priority registration for the spring semester, you **MUST** have up-to-date Educational Plans (SEPs)! This means it should cover Spring 2021.

If you're not sure if you have a current SEP, follow these steps to check:

1. Sign on to websmart
2. Click on “student account”
3. Click on “degreeworks”
4. Click on “ed plan”
5. Look at educational plan and make sure your SEP covers Spring 2021

If your SEP does NOT cover Spring 2021 OR you have not completed a SEP yet , please email us as soon as possible to schedule an appointment with one of our counselors. We need to see you before the end of October in order for you to receive priority registration for the Spring 2021 semester!!!

Here are the important priority registration dates that you need to know:

- **Oct. 30 (at noon):** all SEPs must be completed in order to receive priority registration
- **Nov. 4: Priority registration** for Spring 2021 begins

**If your SEP has been planned up to or past the Spring 2021 semester, you do not need to make an SEP appointment. However, please note it is good to check in with a counselor at least once each semester regarding your educational goal.*
