

28. Overall, how would you rate your educational experience at Cañada College?

Answer Options

Grade A	54.0%	568
Grade B	39.1%	411
Grade C	5.8%	61
Grade D	0.7%	7
Grade F	0.5%	5

answered question 1052

skipped question 79 (7%)

Number Please explain

- 1 The first day i went to get information about attend the orientation and assessment, the lady that help me out was kinda rude and unfriendly. there was an old lady who was very friend and easy to speak too.
- 2 There is SO MUCH HELP here
- 3 I'm encouraged to follow my studies. With one exception the teachers are amazing. Canada provides support for an older student, like myself.
- 4 This college offeres courses and the best thing is there partnership with SF University is awesome.The only thing i would ask to change is add or make counsellor appointments longer. For myself and a few other students half hour is not enough to plan out your semsteres well or share your ideas for your future classes.
- 5 I would rate a B because sometimes I think classes could provide more support.
- 6 Sorry that I can compare with other schools due to almost no experience.
- 7 Overall good but I have come across a few (2) teachers who aren't that great at teaching
- 8 I haven't had a problem at all so far, very nice and free smoking campus and I like that.
- 9 I have spent the last 12 years in tertiary and post graduate education at 4 institutions on 3 different continents. Canada is by far the worst education I have ever had. The professors are pathetic for lack of a better word. They are completely out of touch and have no idea how to teach. Reading powerpoints does not inspire confidence in these "educators"
- 10 I love the way all my professor have a thier own eaching style because I feel as if it is preparing me for the future. In the workplace you will find yourself meeting many different managers and you will need to know how to understand and work with them.
- 11 I think my educational experience is the best one can have at a community college.
- 12 Thanks for the new soccer field
- 13 This is truly the perfect place for mega
- 14 There is not enough support for ESL student at CWA program
- 15 I know that I could try a bit harder in my statistics class.
- 16 I have only taken a few courses but I have been fortunate to have great teachers.
- 17 Again, the available resources and fair professors gave me a good educational experience.
- 18 solid A
- 19 The reason I chose B is because Canada College is excellent but there are some professors who does not have patience.
- 20 My experience at Canada after 30 years of being out of school has been wonderful. At first I was hesitant to go back to school, but Canada staff made my transition back to school very easy. Especially, the CWA program, it's course outline is easy to follow and allows you time to still work. The only problem I came
- 21 I've always enjoyed my time here and never had a problem.
- 22 Job oriented
- 23 Couldn't be happier!
- 24 grades should be easy to access in order to know how we are doing
- 25 Miss alot
- 26 My classes and teachers have been fantastic. I've learned more than I expected to when I started
- 27 everyone is very kind, the teachers and counselors that i've come across are very approachable
- 28 im learning a lot
- 29 I live in San Jose and I rarely mind the comute.

- 30 I love Cañada college!
- 31 because I like to study and teacher are excellent
- 32 I have had excellent experience with my professors and there teaching patterns.
- 33 Great faculty and staff.
- 34 Like all school there are good teacherts, and not so good teachers
- 35 Classes are very good
- 36 All of my classes have been very informative and educational. I love that my professors took personal time to see me grow and improve.
- 37 All my teacher have been good teachers, except for one that didn't do anything when a group of ladies were laughing when my friend who doesn't speak good English was presenting her part. This teacher never stop that group.
- 38 I have been trying hard to get in all the classes i need to finish school.
- 39 I am STEM major and I'm getting sufficient help
- 40 There is a lot of support and scaffolding of information at Canada by professors, which I find good and bad. Good because support is nice. Bad, because this does not resemble the real world.
- 41 I have enjoyed my class at canada
- 42 For the most part, Canada College offers a positive learning experience. However, certain instructors, primarily in the Math Department, to not have, what I would consider, effective teaching skills. In addition, they also need to assert more control over their classes.
- 43 I am an honor student.
- 44 Better than I thought it would be, although I feel like classes could use time more efficiently and teachers could clarify on harder topics.
- 45 Some professors are great and some need to be dismissed.
- 46 Overall great instructors and curriculum
- 47 Great and Friendly Campus
- 48 I feel like I've learned a lot.
- 49 I would of given an A but some teachers are not organized and should have better lesson plans
- 50 I achieve the best result that I could get.
- 51 I've grown so much being a student at Cañada. The staff has been so supportive in helping me achieve my goals.
- 52 Would like more options with course availability - hard for a working adult to finish school when one of the classes they need is only offered in the middle of the day
- 53 I wasn't aware of what Cañada provided as far as student services until my second year.
- 54 The online course is one of the best I've taken
- 55 Pretty good
- 56 the teachers are great
- 57 I have learned so many things, all useful, while at Canada.
- 58 Supportive close knit community both between teachers and students
- 59 Wish teachers would be more up front about grades and keep more organized with their classes.
- 60 The instructors are very good at what hey do, because they have experience in what they're teaching and they share that experience.
- 61 Though I have not been here long, I have not come across too many problems so far
- 62 So far I'm having a great experience at Cañada and feel like I'm learning a lot.
- 63 A
- 64 sometimes i fall behind but i never give up.
- 65 I really enjoyed all the classes that I have taken at Canada.
- 66 well i am just starting off my college experince and so far i am doing well. there are some things htat are down falls. like for math, online is not a great thing. sometimes your eyes hurt or you dont have computer access so that not all the way great.
- 67 None of my questions have ever been turned down. The professors are nice, and helpful.
- 68 In the beginning of 2012 i did really poorly i had to work and had a child but know im back and doing my best in school coming in time and doing all my homework.
- 69 I rated my experience at Cañada an overall A because everyone at Cañada is awesome.
- 70 Some teachers are young and figuring out how to pace classes, grade fairly, etc., but they're generally good at teaching and helpful to students.
- 71 Great INTD program
- 72 I got very high grades and I deserved to get the KAPPA membership due to my outstanding achievements.

- 73 I would give it an A but there has been one class in which I took that did not prepare me for the current class I am in. Also if the learning center or if there was a computer lab open for a longer period of time that would be very helpful
- 74 although good, not everything I want is available
- 75 What I have been taught has stuck with me because of good teaching
- 76 I have a very qualitative experience, here in Canada College.
- 77 I love Canada College but the classes don't seem challenging enough.
- 78 Because it is a very nice and clean College to attend
- 79 In my experience I give Canada College an A for its achievement to excellence.
- 80 All of my teachers were extremely helpful and smart. My education was definitely broadened at Canada College.
- 81 Unacknowledged about dropping classes in time, Reasons of periodically ill for long, long time impeding me continuing those classes I began. Also when I did a good performance the teacher grade me unfairly, and etc.
- 82 Everything has gone smoothly. However, the library and learning center should be open on weekends.
- 83 My educational experience at Canada is a B because there aren't enough evening classes.
- 84 Everything I expected
- 85 Good people with classes I need
- 86 Better than the last community college I attended
- 87 Teaching staff, resources, relevant programs.
- 88 I rate my educational experience here in Canada a grade B because this is my first semester here in this campus.
- 89 I feel challenged but accomplished.
- 90 I haven't face any obstacles yet
- 91 My grading and interaction with my only professor is not acceptable, communication is very difficult with her, but I do enjoy the campus.
- 92 I got out of it what I put into it
- 93 There is plenty of resources available at your disposal and the college is very amicable
- 94 I've had the support I need in order to obtain my goal
- 95 I genuinely feel that most people here want to help me to succeed.
- 96 If I need assistance in anything, Canada helps as much as they can.
- 97 some counselor doesn't know enough information and some professors doesn't grade fairly
- 98 Currently I'm on the Radiology Technology program and so far it's been a great experience. The program is a little tough, but I understand that hard work is the only way to success.
- 99 There were many times that I was not helped properly by counselors and my time at Canada was really affected by this
- 100 Need new slides for anatomy. Learning Center Hours should be expanded. Options for "Do not know" should be available for all questions on this survey. For example, I don't know how well Canada College has prepared me for a career until I am in the career.
- 101 Instructors are much more understanding and help is more accessible than at my previous college
- 102 I struggles in some aspects but when I caught onto the speed of things I was able to raise my grades.
- 103 Excellent. I am glad I chose Canada College
- 104 It has a great society.
- 105 Its weird
- 106 The instructors are friendly and helpful.
- 107 Excellent Professors, EOPS group- Sarah - Jose wonderful- FA office great, Yesenia at front desk, everyone so helpful- I've been to other campuses and Canada is so different- I.e. Dottie at Front desk-
- 108 I have had great and bad teachers but everything else is good.
- 109 It's better than high school/
- 110 I only had maybe one or two teachers that I feel I couldn't learn from because their teaching style just wasn't helpful for me.
- 111 Learning Center hours are terrible for my schedule. Would really love for extended hours on Fridays and weekends.
- 112 there is one instructor who is mean, Kate Charlton
- 113 I can't think of many objections; but there is always room for improvement!
- 114 I have had nothing but good experiences while attending Canada College

- 115 I didn't start off too well because I didn't know about rate my professor and I thought it'd be like high school where I can slack off and still get a good grade, but no, I have to work hard to get the grades I want and after my first semester I got the hang of it and started doing a lot better in all my classes.
- 116 Some teachers are hard to understand.
- 117 Some teachers need to be more organized. Some need to be more clear. But overall its a good school
- 118 For the most part, many of the teachers are very good and understanding but the few that aren't are people who are very rude to the class and do not try helping the students out when they ask. If it weren't for these teachers cañada would have an A.
- 119 Beautiful campus, most teachers were great, the labs were great, it was overall a good experieence!
- 120 I did not the administrative procedures ,just I dropped many,many classes with/out notified to nobody.
Being the reason that periodically I felt sick
- 121 Great professors, classes, students, activities
- 122 its a good schook
- 123 Some counselors aren't fully informed about program requirements.
- 124 It has always been a pleasure for me to attend classes at Canada College
- 125 Canda College has been such a supportive campus for me
- 126 The Professors are top notch and amazing here as well as the counselors, administration and all other staff members. The facilities are impecacble and the landscaping is well maintianed. I do have one recommendation the outside tables in the grove are used by many students daily and may need to bee cleaned more than once a day.
- 127 There's nothing I would really change except for things that I could fix myself to create a better experience.
- 128 not all teachers are supportive of their students
- 129 A very supportive environment and small class size allow for great student-teacher interaction
- 130 Fulfilling experience completing Canada College
- 131 simply because they have an excellent and high level on education
- 132 Microbiology porofessor does not have the necessary book for his class!
- 133 I would rate it an A because the teachers are helpful and they take their time to help me
- 134 Though I've had a couple professors who lacked interest/willingness to help, most of my professors have been awesome not only in teaching me class content, but also how to interact with others in a professional environment, build ideas/relationships.
- 135 I do recommend that Cañada offer more courses in the Humanities department
- 136 Overall my educational experience was great, I have had some awesome professors here. My favorite is Dr. McQuade who teaches English. I looked forward to her class everyday.
- 137 Some of my classes I can't stand to go to because we don't do anything but read a chapter in a book. I want to learn and use my time efficiently
- 138 I only take one class here but it has really changed my opinion on the campus. I really like the campus
- 139 There could be more class choices, but over all classes are acceptable.
- 140 It hasn't been anything super special, but it has been sufficient
- 141 It's definitely gotten a lot better recently!!
- 142 Sometimes its difficult to rate the experience as extremely positive as the classes are often required to get to another place, difficult to stay motivated.
- 143 Certain teachers are not approachable and seem to have issues with talking to the class, but only one of my teachers has been like this so far.
- 144 It's just the amount of effort I've personally put in. It is improving for myself but the school overall is great!
- 145 It's not perfect because it diffculyt finding evening classes but my overall experience is Grade A
- 146 some of the teacher are not up to par. for the most part it is a nice place of learning
- 147 Good school but the only thing i don't like though is sometimes when i want to sign up for a class, it is only offered once every few semesters and i have to wait
- 148 Has good teachers in multimedia department but should add some programming classes
- 149 Professor Schwarz has stopped lecturing in class. I come to school to learn, and to come to school, and not be offered the tools to learn via lecture, is not acceptable.
- 150 Most of the teachers I have had are sub-par....
- 151 Because I always learn something new
- 152 I'm learning a lot.
- 153 I am a participant in the College for Working Adults program and it has changed my life.

- 154 Middle College Program, great staff, helpful tutors, and all the STEM related activities
- 155 Make the courses less harder to pass than courses given at Universities!
- 156 No complaints
- 157 It's easy along as you do your work
- 158 Overall it has been great minus my 308 class where I am teaching myself upwards of 20 hours a week for a 3 unit class
- 159 I am comfortable on campus and I feel Canada is a college that really wants each one of there students to succeed. There is so much help offered it's amazing.
- 160 My educational experience has been fantastic because I was generally able to choose classes based on the professors I felt were passionate and helpful about their area of study.
- 161 It has been good so far although some teachers and staff do not have idea of transfer or certificate requirements.
- 162 Teachers always help me if I need it
- 163 As with any class or course you need to score high to get an A. Canada scores very high in my experience.
- 164 It has been difficult and long attending here. I do not feel welcome by anyone hardly, nor safe. When I try to get help, I am dismissed as though I do not matter. The issue is that this campus is full of children who act as though they are still in high school competing with each other over silly issues which never mattered to begin with.
- 165 Always work through my disabilities instructors try to understand.
- 166 My experience has been superb although I ahve taken a hand full of classes there I enjoy any of the three campus.
- 167 Although everything about canada is awesome. There is still some flaws. Like I've dealt with great teachers. But there are also other teachers who are also great but non that effective as a teacher
- 168 Been here too long because sometimes the classes needed are not available.
- 169 I am only taking one class right now but love it.
- 170 I have learned a lot as well as been given wonderful opportunities like study abroad, and archaeological adventures.
- 171 Very nice campus, great professors, and a helpful staff
- 172 because staff memeber and students are really helpfull and friendly
- 173 I've learned a lot throughout my college educational experience
- 174 The Multimedia Programs are great and I fully expect to find a job after completion.
- 175 It is good. But I found that some counselors are not too helpful, and I know this because I have seen a few. I currently see a coueslor from College of San Mateo and she's great. There should be more counselors like her.
- 176 I really enjoy the classes and I am raelly learning a lot, but I say B becasue I find it difficult with physics and programing classes.
- 177 I've had a great experience here at Cañada College! I have no complaints!
- 178 location, professors, safety, everything is good
- 179 the admissions services are very helpful
- 180 Some teaching methods didn't specifically help me learn
- 181 I've always felt safe and comfortable here. If I ever had any questions the faculty were always there to help. Will miss this campus lots in the Fall. After 3.5 years attending Canada my time has come to end.
- 182 I get all the help I want. They provide what I do not have and they can able to help you in everything that you need to succeed in school.
- 183 SOme instructors weren't very patient and I felt intimidated and I asked no more questions.
- 184 At times it was not made clear about classes to take and guidance counselors were unfamiliar with major requirements and transfer needs
- 185 As much as i learn.
- 186 All professors I've had were knowledgable
- 187 Don't feel supported
- 188 i've gotten everything I've needed out of Canada
- 189 the professors seem to take a personal interest in students, the curriculum is interesting, and there's help everywhere you turn!
- 190 I have not encounter any complains.
- 191 Disability services is a failure.
- 192 I learned things that change my life and the way I see life after taking classes of human services at canada

193 I have become an "A" student with the help of my professors and staff.

194 I'm in the CWA program and I'm happy with it.

195 Chem 210 is offered in the eve, but not Chem 220

196 Teachers are nice and helpful.

197 mediocre

198 first time good so far

199 So far in the little time I have had with Canada, my experience has been great. From orientation to securing classes, the experience is great.

200 My instructors have deep understanding of subject matter.

201 I have had some issues but I was able to find my way by asking multiple people to finally find out the best answer for my issues.

202 I feel that as a students we need more information about financial assistant or scholarships.

203 Not the best, but it is good

204 As a middle-age student returning to school to re-enter the workforce, I can't help but compare & contrast my experience Cañada with those of studying abroad, continuing education through nine years of government service as department secretary & R:Base programmer, Reading Area Community College/PACE Institute-Reading, Pennsylvania, Union College-Lincoln, Nebraska, College Fresno City College & Los Angeles City College: I find in Cañada College both strength and weaknesses.

205 they need to update the buldings

206 The best

207 teachers are very passionate and knowledge, its contagious

208 I have great relationships with the professors and classmates

209 My teachers have been amazing and the support I receive has helped me to do well.

210 The teachers were very helpful.

211 my main issue is the cleanliness of the grove. the students who eat there are pigs. they leave food wrapings evey where, theres food crusted on the tables. and yiur internet is awful, I jave a hard time loading websites and sometimes I cant submit my online homework because the site will crash because of ur internet. also, I have a class at 8:10 in the morning and the learning center isnt open, so if I need to print something like a lab report, im s.o.l.

212 I really enjoy all the classes I have taken at Canada College. I have really learned a lot from my previous and current class.

213 The reason I don't give A is because My Math professor not much helpful

214 I am thrilled with Canada!

215 A cut above the rest.

216 Great Faculty and very good coursework

217 some teacher however dont know how to teach

218 teachers are great

219 I have had good experiences here at Canada the staff are nice and supportive. The school has a vibe that makes students believe they can achieve thier goals.

220 Very helpful staff

221 The quality of education is great at Cañada. The campus is clean and welcoming. The only thing that could make it better is if there were a wider selection of courses / majors, and if there were better faculty for some departments.

222 I am comfortable at canada

223 The former CWA counselor enrolled me in classes that I did not need.

224 the campus is looking good and safe. The staff are professional and all people help you to obtain your goal. they work as a team

225 Everything is excellent ,and I have the best professors.

226 I have had a great exprince with the students, teaching staff and all the staff.

227 I like my classes overall. I am very easy to adjust to any proffesor and his/her requirements. I am able to cath anything so far.

228 The labs have very little equipment, there are classes I would like to take that aren't available here (botany, historical geology).

229 Canada College has given me wisdom to concrete my dreams

230 I believe I am a B student I have pass my clasees most of the time with B's or C's but mostly B's/

231 Quality of courses and experience

232 Things could always use improvement.

233 I have had ups and downs but the campus had nothing to do with it

234 it has helping me a lot
 235 Not enough electronic music classes
 236 I've only taken a couple of classes at Canada, but I've had an outstanding experience here so far. The faculty and staff are incredibly helpful and take pride in their work. I feel like a part of a community and am grateful for the resources that our school provides.
 237 very positive atmosphere and exceptional teaching staff
 238 Overall quality. Still doesn't have the depth of curriculum I'd want.
 239 So far I'm really enjoying all my classes and the professors are very helpful.
 240 Very good support by teachers, staff and counselors.
 241 Wish classes were a bit more challenging
 242 The first counselor I had was not very knowledgeable and I took some unnecessary classes.
 243 I like the classes they offer, and the teachers do a good job.
 244 Surprisingly in these economic times the limitations to additional help that is available to evening students

 245 I have taken very interesting courses and I feel more prepared not only for my career but my life.
 246 healthy environment for learning
 247 I take only one class per semester and it was almost cancelled
 248 because I feel staff needs to give us more information or push us, especially people who are employee

 249 It has the best teachers, and opportunities for students and schedules.
 250 There is nothing extremely wrong with Canada I just feel like this is not a place where I belong. Now I have to precise that I am in my first semester and it can change along the years.
 251 I have taken science courses at other schools where we were left in the dark or challenged not so much academically, but without proper expectation of what was going on.
 252 The campus can be confusing to find class.
 253 Some teachers could be complicated to understand
 254 Great professors
 255 I cannot give an accurate overall assessment because I have only one class at Canada and my teacher is okay.
 256 Great school great teachers
 257 Helped me transfer to SFSU
 258 I have enjoyed my time at Canada to an extent, however at times the classes seem like high school, where the teacher has to walk the students through instructions step by step. I also had great difficulty finding a counselor here who I felt was really dedicated to helping me transfer. Most of the research and deciding which classes to take I had to do on my own time
 259 I improve a lot of my writing, listening, and speaking skills. Although I live in San Jose, I can not change to another colleges near my house because I do love the environment and people in Canada College.

 260 There are classes that are hard and not inspiring to do what the professors ask for.
 261 It took me almost a year just to find a counselor who understood my needs and actually paid attention to what I wanted for graduation and transfer
 262 The campus is very good. The only thing I dislike is the distance from my home to campus.
 263 It has gotten better and more friendlier since I started in 2001.
 264 I learn a lot of interesting things in the classes and to say that I met a lot of friends in the STEM Center would be an understatement.
 265 I have completed 28 transferable units. 4.0 GPA. A in all of my courses that I have ever taken here.
 266 I could have pushed myself harder
 267 The professors here are always more than happy to help you after class and are accessible through email.

 268 Teachers make sure you are doing well
 269 CWA program is excellent with the exception of transcript review. I have been waiting 7 months to have my earlier transcripts reviewed and still no word. Very frustrating. Prior Counselor collected my earliest transcript from CMS and lost it. I would like a clear idea of what I need to graduate. Of the 7 classes I have remaining, I believe I've already taken 2 of them, but I need to know for sure.
 270 .
 271 Excellent community college
 272 The program I am in is very up to date and the professors are helpful and very informative and knowing of their knowledge of their specified field.
 273 I get the classes I need and the instructors have been fantastic.

274 So far Canada offers a lot of classes and experience over all
 275 I have always had support
 276 It just was excellent
 277 pretty good
 278 not enough classes for working students
 279 I love the educational environment. It has powerfully enhanced my writing, public speaking skills.
 280 The educational experience I have so far is superb. My instructor goes beyond and above to help us succeed in the course we are taking.
 281 There have been some technical difficulties in which my class lost valueable time. It became so distracting and inconvenient, that we omitted part of the class and wasted money on now unnecessary materials.
 282 Lack of TAs for chem 220.
 283 the staff is very good , i feel free and I did all I like
 284 Grade A
 285 It is a nice campus but it still feels like I am in high school.
 286 I'm fulltime student and fulltime worker also.
 287 I would say I am having a positive experience here at canada. There's alot of help for students: they have tutors.
 288 Some classes are great, some aren't. Some professors are great, some aren't
 289 I haven't been enrolled here very long, just a little over a year, and I would say my experience has been overall satisfactory, if not pleasant.
 290 Best college I have attended (attended two other colleges in the past); overall excellence in staff, instructors, upkeep of school grounds, library, bookstore, etc. Only suggestion, please update restrooms, and elevators!
 291 It has taught me a lot
 292 I've had a great experience at Canada College
 293 I feel like there's things for example library hours and teaching formats that cañada college can improve on
 294 so does my professors
 295 It was the best decision of my life to come to Cañada College
 296 Very supportive atmosphere which allows to strive forward to success
 297 In fact Canada College needs A+++. Staff prepare you for transfer, get you internships, resources for scholarship , tutoring and welcome environment for all race
 298 My GPA has been a 4.0 here and it has never been that high, I think it's because of how teachers teach at this school.
 299 Facilities need upgrading; courses are frequently cancelled
 300 i love it. it's so simple and beautiful, yet i feel i'm in a safe place to learn and be myself.
 301 I've only been for one year and a half
 302 The academic level seems to comply with the students who attend this college. I like that.
 303 I love it! It's safe and fun.
 304 Some instructors are un-approachable when asked why a certain final grade has been given. One instructor was biased in giving his final grades.
 305 I first began as a middle college student back in 2012. I was nervous about the professors and the level of difficulty for the classes were going to be. Thanks to the professors and learning center staff, I have all that I need to be a successful student.
 306 Some professors need to go over stuff and explain In detail what they expect from students when something is due
 307 I am receiving an excellent education in spite of my disability.
 308 I have been at Canada for almost two years and in most of my classes I have learned a lot.
 309 I would be choose an A if i could find more classes at night
 310 wish counselors made appointments mandatory for first and second year
 311 Because, instructors and staff employees help me in all my necessities.
 312 Because I have excelled more than I had anticipated being at Canada, and I have learned endless amounts.
 313 I am having a great experience at Cañada, but It can be better with more advanced technology.
 314 Not rigorous
 315 Could always be better, but is still a great school.
 316 CC is a good college, there are a few areas of improvement in my opinion but overall I'm very satisfied.

- 317 The class I'm taking is extremely organized and the teacher provides ways for the students to help each other out as well as sites and worksheets with helpful information to clarify topics in my class.
- 318 It has enhanced my work.
- 319 Had some of the best instructors ever especially for math
- 320 Wonderful teachers!
- 321 Teachers are awesome here!
- 322 teachers should give more extra credits and different things so students can pass their classes because not everyone is good with exams
- 323 I've had a bad experience with a counselor who gave me bad advice & ended up making my last semester more stressful than it needed to be. Soroya ultimately fixed the other counselors mistake and led me to an easier semester.
- 324 All but one of the instructors that I have had at Canada have been good or great. The other one Ms. Jeanine Malatesta should not be a teacher
- 325 It is a hit and miss on what Professor you get and how well they understand their role as a teacher. Some are great and care about teaching you and others can be mean and demeaning to you if you just ask a question about the material. You really have to be able to just learn the material on your own. It is possible that the instructors have so much to go over in the class that they just don't have the time for questions.
- 326 I have a big educational experience in Canada college because I have learned a lot. The teachers are great and all the people who work here are really helpful. When I first started here I didn't have an idea of what I was here for the only thing I knew is that I was coming to learn English. Now with the help of a counselor I know that accounting is my major and I am going to give my best to reach my goal.
- 327 good so far
- 328 The majority of Professors are well versed in their subject.
- 329 while not perfect, Canada is pretty great
- 330 Canada College provides all the tools I need to further my education.
- 331 My experience has been good. In order to make it better, there should be more STEM and Honors counselors. The same with academic faculty-there should be more than one Geology, Math 130 professor.
- 332 I am doing post-bac classes, so I might not be the typical student. I've had quite a bit of educational experiences outside of a community college setting. I expected the teaching to be better here. I have sufficient resources to do just fine, but it saddens me for the people who don't. Over half of my class has dropped; the pace is very fast and the instructor gives off a vibe that he is rushed and doesn't have time to take questions. It's halfway through the semester and he has no idea what any of our names are (in a class of 20, tops). It's clear at times that he struggles with the content.
- 333 My professors are all really good and the campus is really nice.
- 334 I have not had any problems so far, I appreciate the professors staying longer so I can get help.
- 335 I believe Canada is a large component of my increased wanting to learn
- 336 I've had some of the best instructors I've met so far.
- 337 I went to Cuesta College and had a hard time getting help and here it is so easy to figure stuff out
- 338 I cannot complain.
- 339 Amazing! I have learned so much and have been inspired by other students. I am very excited to go into my new chosen field.
- 340 the financial aid process was awful. but once I got through that, everything else has been relatively smooth
- 341 I have had some excellent and memorable professors, have discovered interests in areas I did not entirely consider before, and overall I have had a worthwhile learning experience attending the school.
- 342 All the staff are willing to help you
- 343 Canada has been great for me!
- 344 It's the best
- 345 I love coming to Canada, it has improved a lot.
- 346 I would really like it if the library and learning center opened at least at 7:30am for students who arrive early for morning classes. I would also like for teachers to be more active in making students aware of their grades before the end of the semester.
- 347 It would be an A experience but because of an instructor now it is a B experience
- 348 The work and classes are fine, but it just feels slow, it may be a while until I transfer.
- 349 classes are good, clean, effective, and affordable

350 Learning Center is the best, especially Math Learning Center

351 I love it here
