# Important Things to Remember

- You can have multiple program goals, and each of your goals can have multiple resource requests. But resource requests only need to be entered if you need something that comes with a cost and you don't have a funding source available.
- In order to enter resource requests, you have to enter at least one program goal first.
- All of your goals should align with at least one college goal.
- Your resource requests should only be for resources that cannot be funded from your department/division, or another funding source. It's a good idea to discuss the resource requests you plan to enter with your supervisor in advance.
