Land and Labor Acknowledgement:			

We acknowledge that Cañada College is situated on the traditional unceded land of the Ramaytush (Rah-my-toosh) and Muwekma (Moo-ek-mah) Ohlone (Oh-LOW-nee) peoples, and we respect our past elders and honor the present community. Long before Cañada College existed, this area was home to the Ramaytush and Muwekma Ohlone peoples, who still have a presence in the Bay Area today.

We have a responsibility to acknowledge that we as a Cañada community have benefited from the use and occupation of this land and that the tragic legacy of colonization, genocide, capitalism, racism, and oppression still impacts people today.

We also recognize the labor upon which this educational institution, state, and country is built.

We acknowledge the peoples of African ancestry who were enslaved and forcibly brought to this land, and whose forced labor played a major role in the formation of this country. We are indebted to their uncompensated labor and their unwilling sacrifice over hundreds of years—which continues to impact generations today. We honor the legacy of the African diaspora and the continued contribution of their survivors.

We acknowledge the contributions of all immigrant labor, forced labor, and undocumented people who contributed, and continue to contribute, to the building and feeding of this land. We acknowledge their immeasurable sacrifices and work that allow us to gather in this space today.

Let us not forget. Let us honor and engage with the people who have stewarded and labored on this land for generations, and let us honor these truths—by taking responsibility as a college community to continually educate ourselves about these realities, to affirm our commitment to justice through continual action, and to protect and sustain this land.

The discussion focused on improving Inter-Club Council (ICC) operations, updating club training, and ensuring Middle College clubs are properly represented and protected within the bylaws. *Chanel began by expressing appreciation to Miguel and Alexis for stepping in at the last minute when they were unable to attend the previous meeting. They also expressed strong support for revamping club training and introducing shorter training courses, emphasizing that these changes are especially important as the organization updates its bylaws. The Interior Design Club has volunteered to host the upcoming Monday meeting, and leadership is waiting for confirmation to coordinate the details.* *A significant portion of the discussion addressed Middle College clubs and their ongoing challenges with attending ICC meetings. She explained that they have repeatedly received emails about this issue since August and have consistently encouraged Middle College students, club advisors, and senators to work together to develop a proposed solution. They emphasized that the students directly affected should have the opportunity to identify their needs and create a solution that reflects their experiences. Also stressed that Middle College clubs are not currently adequately protected in the bylaws and that formal changes are necessary to ensure their permanent inclusion and representation.* *The proposed solution is for Middle College clubs and their advisors to write a formal proposal outlining how they would like to participate in ICC. Once submitted, the proposal can be added to a meeting agenda, discussed, voted on, and incorporated into the bylaws if approved. Possible accommodations include permanent excusal from meetings when necessary and access to meeting recordings. Chanel reiterated that this alternative had already been suggested in September and that they remain willing to provide recordings and other accommodations.* *The Middle College Pickleball Club was specifically discussed and confirmed to have completed its required paperwork, including its advisor form. The club has already coordinated with leadership and has been approved for permanent excusal from ICC meetings, with recordings available as an alternative. Other clubs, including Chem Club and Spark Club, were also mentioned, although their paperwork and activation statuses were not fully confirmed during the discussion.* *Finally, Chanel raised a concern about whether Middle College faculty members are eligible to serve as club advisors. Since these faculty members are employed by the Sequoia Union High School District rather than the San Mateo County Community College District, their eligibility under the current requirements needs clarification.*
